Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs.

If you are tired, nervous, irritable, cannot sleep, have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fluid is needed; something to increase nerve energy—strengthen the nerves.

Dr. Miles' Restorative Nerve is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.

"When I began taking Dr. Miles' Restorative Nerve and Anti-Pain Pills, I was confined to my bed. I had severe nervous prostration, the result of two years' illness with malaria. I gradually grew so weak that I was unable to sit up. The pills would commence with cold chills, and I would become weak and almost listless. My circulation was poor. I took a dozen right along but grew weaker and weaker. The Nerve seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nerve, and I am entirely well."

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

Wonders of America.

The greatest cataract in the world is the Falls of Niagara.

The greatest cave in the world is the Mammoth Cave in Kentucky.

The greatest river in the world is the Mississippi.

The largest valley in the world is the Valley of the Mississippi.

The largest lake in the world is Lake Superior.

The greatest natural bridge in the world is the Natural Bridge in Virginia.

The largest mass of solid iron in the world is the Iron Mountain of Missouri.

The greatest grain in the world is Chicago.

The largest deposits of anthracite coal in the world are in Pennsylvania.

Program Fiddler's Convention

Dahlonega, Ga., July 22, '05.

11 o'clock, a. m.

Address of Welcome—by Mayor R. H. Baker.
Dixie—by all fiddlers present.
Music—by the string band.
Katie Hill—by W. H. Satterfield.
Dinner.

Contest immediately after dinner.
1st prize—Gold Coin \$5.00.
2nd prize—Cash \$5.00.
3rd prize—Cash \$3.00.

Every one selects his own tune provided it is not played by note, as the object of the convention is for the benefit of the old time playing, something that will interest all.

Song—by John Anderson's class.
Music—by all fiddlers.
Awarding of prizes.

Competent judges will be selected so as to give each and every one a fair chance.

Every person playing a fiddle or any other kind of an instrument, is requested to come and join us, matters not whether you reside in Lumpkin county or not. You are welcome, for the gates of Dahlonega will be thrown open. Come, yes let everybody come and help us make it a day of enjoyment.

The full afternoon program has not been made out but every one playing any kind of an instrument will be given a chance.

The convention and picnic will take place at the park, supplied with cold spring water and one of the prettiest places about Dahlonega. Let all come and bring a well filled basket.

Those desiring to enter the contest are requested to send their names to W. B. Townsend by the 10th of July.

Live in the Present.

Ada M. Krecker, in the Pittsburg Dispatch, says:

To-day is eternity. Eternity is now, and now is all the eternity we shall ever get. We talk much of eternal happiness, whose eternity we say has no beginning and no end. The fact is that today is part of that eternity, and if we do not get some eternal happiness out of each day we will never get any at all. This is what we have to realize and act upon.

There are many heroic souls who sit enduring patiently the trials and tribulations of their lives, finding their one consolation in the persistent looking forward to the joys of eternity which they expect to gain when their experience here is over. This dreary fortitude in a dim future is pathetic, not only because it is delusive, but also because so persistent a living in the future blinds the sufferer to a great deal of today's present good which he might realize without losing his future advantage. When we have realized that this painfully strained living in the future is a mistake we find today not so barren as we thought. As its possibilities unfold and the hidden eternal happiness in holds comes to light we begin to find out how much eternal happiness we have thrown away because we had not taken each day what the eternity of every day brought us.

The eternity of today holds something for each of us.

No duty, however difficult, should be feared half so much as that we fail to recognize it, and that we will be unfaithful when it comes. It should be a great deal easier to do what comes than to face the responsibility of having not tried.

Carrying Concealed Weapons.

The following editorial taken from the Athens Banner, is to good to pass out with one insertion in one newspaper. Every paper in the state should copy it and every man in the state ought to read it:

The habit of carrying weapons concealed and using them on the slightest provocation is growing in this country at a frightful rate. The newspapers every day contain dozens of accounts of tragedies that have been consummated by virtue of the concealed weapon. The law is either powerless or its execution is very faulty. There can be no excuse offered for the carrying of a concealed weapon. If a man thinks his life is in danger, the law allows him to carry any weapon he chooses provided it is in plain view of everyone. Therefore he cannot hide behind the plea of necessity in the carrying of a concealed weapon, even if he carries it in plain view of all. In the average city, if the hip pockets of all the men could be suddenly uncovered, the population as a rule would found to be carrying a deadly weapon of some kind, in most instances a pistol. The carrying of the pistol means a determination to take human life under certain circumstances. If a man with a pistol is engaged in a war with another, he is more than apt to pull the pistol and shoot his antagonist, even though the law clearly tells him not to do so. The mere carrying of a pistol is an inferred determination to get into trouble on the slightest provocation.

Very rarely in a man's life does the necessity arise for the use of a pistol, and usually it comes at home when some one may be invading his property with determination to commit a felony. The ordinary insult that one may offer another does not call for the use of a deadly weapon. The world asks a man only to show his manhood by resenting an insult. This may be done in many other ways than by shooting the man who gives the insult. Slight provocation that causes the run of these tragedies is not sufficient and would not result in death and sorrow unless the handy pistol was so often in the hip pocket.

The court should enforce in the strongest possible manner the law that prohibits the carrying of concealed weapons.

Property Transfers.

The following deeds have been recorded in the clerk's office of the Superior court of Lumpkin county during the past few days:

F. M. and M. J. Williams to William E. Sain, Nos. 1091, 1011, 1012, 11-1.

Sophronie Freeland to Eldredge L. Slover, Nos. 643, 644, 650 and 652, 5-1.

J. M. Davis (shrift) to W. P. Price, Sr., Nos. 810, 811, 11-1.

W. H. Fleming, assignee of The Mechanics Bank of Augusta, Ga., to J. M. Lang, of Gordon county, Ga., Nos. 167, 114, 97, 932, 12-1, also 1017 and 138, 12-1, and 117, 11-1.

Demey Rice to Joseph Sterns, No. 800, 6-1.

Isabella Magness to Wm. Blackwell and James Gough, Nos. 300, 190, 213, 6-1.

Isaac McConnell to Issam Gaddis, No. 73, 12-1.

Joseph Sterns to William Wehnt, No. 300, 6-1.

Alexander Robertson to Demey Rice, No. 800, 6-1.

Joseph Sterns to Fredric Wehnt, No. 213, 6-1.

Joseph M. Key to Lewis C. Gaddis, No. 69, 12-1.

TAKE WINE OF CARDUI AT HOME

Are you a sufferer?

Has your doctor been unsuccessful?

Wouldn't you prefer to treat yourself—AT HOME?

Nearly 1,500,000 women have bought Wine of Cardui from their druggists and have cured themselves at home, of such troubles as periodical, bearing down and ovarian pains, leucorrhoea, barrenness, nervousness, indigestion, nausea and dizziness, caused by female weakness.

These are not easy cures. Wine of Cardui cures when the doctor can't.

Wine of Cardui does not irritate the organs. There is no pain in the treatment. It is a soothing tonic of healing herbs, free from strong and drastic drugs. It is successful because it cures in a natural way.

Wine of Cardui can be bought from your druggist at \$1.00 a bottle and you can begin this treatment today. Will you try it?

In cases requiring special directions, address, giving symptoms, The Ladies' Advertiser, The Chattanooga Medicine Co., Chattanooga, Tenn.

No man is independent of all other men; no man can work for himself alone. Every action, every stroke of work, every word, affects his fellow mortals in some degree. Humanity (like bees in one great hive) is bound together in common brotherhood whose links cannot be dissolved by individual choice. Let us, then, be true to one another, and see that we furnish to the world our just share of honey!

If you wish to stick anything and have no glue in the house, try the following recipe: Take a piece of cold potato which has been boiled, and rub it up and down on a piece of paper with your fingers for about five minutes. It will become the right consistency, and stick as well as the strongest glue.

DAHLONEGA, JULY 7, 1905.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:

\$1.00 - 12 Months.
50 cts. - 6 Months.
30 cts. - 3 Months.

Cotton reached the 10 and three-fourth cents mark this week.

The child labor bill has already been introduced in the legislature.

A clock has recently been received in New York from England which, it is said, will run two thousand years.

We have always been under the impression that the legislature made and changed the laws and not the governor.

The Brunswick Journal in connecting Col. Bill Findley's name with politics, is doubtless unaware that this gentleman died a short time ago.

The First Georgia regiment, U. S. A., known as the Ashworth Regiment, will hold a re-union in Dawsonville on the first Tuesday in August next.

At the second day's session of the legislature Senator W. S. West, of Lowndes county, was elected president of the senate after the thirty-first ballot.

Hon. John M. Slaton, of Fulton, was elected speaker of the house last week at the convening of the legislature. And Hon. E. E. Dunbar, of Richmond, is the speaker pro tem.

The editor and proprietor of the Dalton Citizen have turned against Clark Howell because he is a friend to railroad corporations. A railroad is what we want in Lumpkin county.

Representative Conner, of Bartow, has introduced a bill in the legislature to sell the W. & A. Road for \$10,000,000 and to use the money to establish high schools in all the counties of the state.

A negro named Terrell was killed near Cordale the other night by two of the little Singletary boys while trying to enter the house with a club, which was occupied by their sister and mother. Brave boys! They did right.

The stone of the Floral Park dam, at Atlanta, gave way last week under the heavy pressure of the rainfall and swept everything before it. Water was 17 feet deep on ten acres, and the dam was 20 feet high and 100 feet long. It was 20 feet thick at the bottom and four feet at the top.

Shippin Bros. inform us that their lumber company received during one day last week forty-six two horse wagon loads of lumber. It takes forty-six, wagons, forty-six men and ninety-two head of mules, horses or cattle and a pile of cold cash to move business in this style.—Ellijay Courier.

Gov. Terrell has offered big rewards for the parties, with evidence to convict, who lynched the white man and seven negroes down at Watkinsville last week. The reward is for \$500 each for the first five, and \$200 for each additional arrest. If all could be arrested it would make a big hole in the state treasury, but we don't believe there is any one loving money well enough to tell on a single one.

Four hundred policeman raided twenty miles square of questionable resorts in Philadelphia the other night and arrested close to two thousand men and women of all classes except country editors. Their fines amounted to \$5,000. Club men in full dress and women of refinement fought like madmen to escape arrest. Men's wives and daughters were there. Fabulous bribes were offered and several attempted suicide in the face of disgrace. Why not foreign mission people suspend work until Philadelphia is saved?

Mining News.

We learn that the McAfee-Land mine will be started up soon.

They have been taking out very fine ore at the Barlow this week.

Mr. Craig R. Arnold is on his way to Georgia now and expects to resume work at his mine as soon as he arrives.

Messrs. Bainbridge and Jackson went to one of the mines in Cherokee this week to examine a smelter to get some ideas for a new fire roaster at the Hand. The present one being too expensive as it requires 40 cords of wood a shift to run it.

The whistle at the Bunker Hill dredge can be heard every morning and the shovel continues to relieve the Chestate river of its yellow milt in paying quantities. The Briar Patch boat is doing the same. The construction of the tubes for the Briar Patch canal is moving along nicely.

The McDonald brothers have quit the shaft at the Lockhart for the present. It needs a good deal of timbering but as they do not know how long they will be able to get the mine, do not wish to spend much extra money under the circumstances. The ore in it is good and plentiful and the owners may fix up and work it themselves, that is when the property is entirely paid for. They are now fixing to get water on the hill and work some of the property by open cuts. The water will be taken from the Hand in pipes.

The vein has not been struck in the big shaft at Crown Mountain and is not likely to unless faster progress is made. In two months it has only been sunk only three feet and the shaft is a little over 80 feet deep now causing some to believe that the Panama canal will be completed first. This makes the third shaft started on this property, resulting in no benefits. By cleaning out an incline they could be taking ore from the Preacher vein in a few days. But a perpendicular shaft seems to be all the go. The Consolidated and Standard Companies lost thousands of dollars by sinking several of these big expensive shafts, and just as soon as Mr. Breyman stopped it down at the Singleton and began following the veins he began to save and make money.

As one of our patrons in St. Louis requests us to tell him through THE NUGGET what is being done at the Josephine or lower Etowah, we can tell him in a single word, "Nothing," but the reason why we are unable to say. Some time ago Mr. VanSickle, a stranger in this country, secured a lease on this property. He contracted with Mr. John Hutcheson, to do about \$800 worth of flume work preparatory to beginning operation. Then the gentleman returned to his home. The work was completed some time ago but the contractor has not yet received any money for his labor. Mr. VanSickle has been coming every week for two months but he has not reached here at this writing, although he has bargained for other mining property. In a letter last week the gentleman said that the Etowah Co. would not pull together. That he would be down right away, settle off with Mr. Hutcheson and call it a loss.

In a letter from A. D. Candler, president of the company, to another patron of ours in Des Moines, Iowa, written from Atlanta, Ga., June 2nd, he says: "In reply to your enquiry of the 31st, I beg to say that the Etowah is in statu quo. A lease of the property was effected, as you have been advised, to Mr. VanSickle on terms which were deemed entirely favorable to the company, and he came down from New Jersey, his home, and contracted with local parties to do quite an amount of work in the form of digging ditches and building flumes. After letting these contracts he returned to New York to perfect his financial arrangements to enter vigorously upon the work of erecting machinery. While the work contracted by him while here has been nearly completed, as I am advised, Mr. Van-

Sickle has never returned, but a letter received this morning from Mr. Kiser, agent of the company who remains at the mines informs me that he has received a letter, dated the 25th of May, from Mr. VanSickle, in which he writes that he has at last overcome the financial obstacles which he has had to encounter, and hopes in a week or two to be able to enter upon his work prepared for vigorous prosecution of the of it. This is all I know of the situation."

A Wholesale Lynching.

Seven negroes and one white man were taken from Watkinsville jail on the morning of the 29th ult., and shot to death by an angry masked mob. Four were charged with Holbrook's murder and one with attempting a criminal assault upon a white lady. The others were for misdemeanor deeds.

The jailer was forced to give up keys to the cells containing ten prisoners. By an oversight one was left in jail. The other nine were taken to a fence close by and tied, where a volley was fired into them. They all dropped and the mob quietly dispersed, thinking that their work was complete, but one prisoner was only shot through the mouth and will recover.

This may look horrible but it was just as bad a sight to visit the scene on the morning of May the 9th and see where Mr. and Mrs. Holbrook had been murdered by some of these negroes, and while these floods were in jail awaiting the slow progress of law one of the party went to the home of a lone lady and ran her, with her little infant out of the house. The screams of the lady attracted the attention of neighbors, thus saving her from being at the mercy of this brute.

Yes, it's hard, but people are not going to see their neighbors murdered and their wives and daughters outraged.

That Dam Case.

The Gainesville Eagle says that the work on the dam which the North Georgia Electric Co. was constructing on the Chattahoochee river at Wilson Shoals, being stopped by a process of law, is a blow to development. It may be, but we hope not. There are two sides to everything. Had this company first consulted the parties whose property would have been damaged, we are satisfied that satisfactory arrangements could have been made for a reasonable amount of money. But when a company or an individual goes right ahead preparing to damage people's land without even saying a word to them, trouble may be expected. Had such steps been taken in Lumpkin county before the Chestate dam was built we are confident that the damages could have been settled for less money than has already been paid out for lawyer's fees, and the present litigation now pending in the Superior court would not have been commenced.

Before the Gorge dam was built in this county, a survey was made to see how far the water would be backed up the river and who it would damage, first. Then an agreement was reached with those interested and no trouble has ever arisen nor never will.

Auraria Dots.

My! how hot it is.

News scarce this week.

Laying by is the order of the day now.

Mr. and Mrs. Paul L. Abbott, of Dawsonville, visited relatives here last Saturday and Sunday.

Rev. T. L. Robinson, pastor of the Baptist church at this place, preached an excellent sermon to a large congregation last Sunday.

Mr. and Mrs. C. E. Hutcheson, of Friday, visited kinsfolks here Sunday.

The singing at the Baptist church Sunday certainly was an enjoyable occasion. Mr. Brackett, of White county, also the Rickett brothers, and Mr. John Anderson, of Dahlonega, were all with us.

Mr. Brackett will commence a singing school at this church the 3rd Monday in August.

Mrs. Alice Jones, of Gainesville, is up on a visit with relatives here. GUESS WHO.

Governor Terrell in his message to the legislature last week recommended county board of tax assessors. State board of control for corporation taxes. Tax on inheritances. Appropriation for additional buildings for agricultural purposes at the state university. Adoption of the Australian ballot system, as demanded by the last state convention. Encouragement of immigration. That all state Confederate flags be sent to the capitol for preservation. Favorable consideration for various departmental recommendations.

What the Japs have not done to Russia the rioters are finishing up. A message from Odessa, dated June the 29th, says that hundreds of Russians were shot during the outbreak that night. Practically the entire harbor was destroyed by the mob. All the warehouses, with large quantities of merchandise and five Russian steamers were burned.

Boarders Wanted.

Eight boarders wanted by T. J. Smith on Clarksville street at \$15 per month. One of the most desirable places in Dahlonega for summer visitors. Nice rooms, fare splendid.

Local News.

If you want any fruit jars, B. R. Meaders & Sons have them.

The heavy rains last week did a good deal of damage in this county to the crops and public roads.

For sale, by F. W. Wimpy, a two-horse wagon, a buggy and a good cow, giving two gallons of milk a day.

Today the Sunday School children will have a picnic out at the park. A pleasant time is anticipated by all.

Mr. Eli Jones, after remaining here a few days, returned to North Carolina last Sunday, to resume his work as traveling salesman.

The sealing law opened on the first day of the month, and a number of persons have been out in the water after the flimy tripe.

Misses Fannie and Marie Gailard have gone to New York to take a college course, so as to better prepare themselves for teachers.

A while before sunrise some one shot his pistol four or five times on the public square, is all the noise of that kind we heard on the 4th in Dahlonega.

Prof. J. W. Boyd went down to Hartwell last week to spend a few days with his friend, Rev. Mr. Turner, former pastor of the Dahlonega Methodist church.

Prof. J. A. Anderson, and Brackett will open a singing school at Bethlehem next Monday. Everybody in that section wishing to learn to sing is invited to come out.

Mr. Whitehead, of Winder, Ga., came up last week for the purpose of remaining a few days, who has an idea of investing in some Dahlonega property, provided he can find any that suits him.

Mayor Baker and Dr. Glenn have been down to Atlanta this week, mixing and mingling with the legislators. We want no new county up this way, but wish those wise men to give us another appropriation for the college, so it can proceed with its useful work.

Dahlonega has both a good graded school and a college. The school prepares the pupils for the college and is free to all residents. This should be a big inducement to parents wishing to educate their children cheap. Let them move in, locate and receive the benefits of both school and college.

On Tuesday morning bright and early our citizens were aroused by the yells of a man and the barking of dogs, supposed to be a hunter chasing a fox, but it turned out to be our friend Ben Anderson after a ham of meat in Uncle Dick Wheelchairs dog's mouth which it had taken from Ben's kitchen.

We wish to inform those unacquainted that there are paper nuggets and glittering gold down in this part of town. Last Friday, while Alonzo Benson was on the branch within a few steps of the Nugger office he picked up a piece of gold weighing three grains. The following day he panned for an hour and made sixteen and two-thirds cents worth of gold.

But very little business was done by the city council at its meeting on Monday night, except requesting that Mr. Stow, the contractor, put all the roads in good fix at once. The marshal made his report, showing that he collected \$188.35 in cash for June, as follows: Street tax \$45.80. Sanitary \$133.55. Dog tax \$2.00. Fines \$2.00. Street tax worked out \$9.50. Dog tax \$1.00.

Mr. Walter McEwen, who has been spending many weeks in the valleys and mountains of this and Dawson counties looking after his timber interests, was registered at Hall's Villa on Friday night. He left the next morning for Dawsonville. In a short while he will begin the erection of dams for the purpose of floating his timber to a place where it can be sawed up and shipped. There is a big demand for lumber.

Chickens sold here yesterday at 12 cents a pound.

Mr. and Mrs. McConnell of Atlanta, are up on a visit, the guests of Prof. and Mrs. Gaillard.

On Tuesday night lightning struck a tree near the Hand mill and killed one of Mr. John Dyre's steers.

Claud England has gone down to Gainesville to accept a clerkship in the Arlington Hotel. Claud is a good boy and we are satisfied that he will give his employer entire satisfaction.

Little John Harbison, or that is we all used to call him "Little John," dropped in to see us last Monday while up from Gainesville. John had almost grown out of our knowledge and will soon be out of his teens.

Sheriff Davis received a message Wednesday night to come out and stop John Beasley, the escaped convict, from fishing in the Chestate river. One of the Andersons tried to find John talked about shooting him with his shotgun.

Miss Blanch Cannon took charge of Porter Springs post-office last Saturday morning. She is fully competent and we feel satisfied that there will be no room for anybody to grumble about the management of this office hereafter.

We hear of some complaint about a post-office in the western portion of this county. People who are so curious that they can't help but open other people's letters, should have nothing to do with an office. A hint to the wise should be sufficient.

Mr. Wm. Campbell, the superintendent of the Singleton gold mine, is expected to leave for Virginia about the 10th inst., to accept a position there. Mr. Campbell has been in charge of this mine for a long time. He has made it profitable to its owners and they dislike to give him up. Who will take his place at the Singleton is not yet known to us.

Prof. Chas. W. Davis, who is now at the Iowa State College, Ames, Iowa, writes us as follows: "Big" Phillips is with me, and is enjoying his trip through the West. He will spend the summer at the Iowa experimental station. Broach is at the Tennessee station, and Aycock at the Georgia station. What our boys will gain at these stations will be of much value to them."

Mr. W. J. Hightower, of Dahlonega, has contracted to saw a large amount of lumber for the Rowland Co., which is buying up thousands of acres of land in this and other counties. He began moving his mill last Monday into Dawson county, near Dougherty. Here he will saw 50,000 feet to be used in the construction of two large houses and a barn for the company. Then Mr. Hightower will move near Canton, Ga., and saw about 300,000 feet more lumber.

For awhile Mr. R. C. Meaders, of Dahlonega, was talking of moving down to South Georgia, but we are glad to state that he is about out of the notion. South Georgia may not be as prosperous a country in a few years from now as it has been. The turpentine industry is on the decline for the want of material, and the farmers are told that they must not plant much cotton, and if this instruction is carried out thousands of acres down there will be useless.

Mr. L. C. Glenn, of Nashville, Tenn., passed through our city last Sunday on his way to North Carolina. This gentleman is in the employ of the government and the object of his visit is to examine the Appalachian range for the purpose of buying it for the government. He has been in the saddle for three years riding all over the country. The gentleman will return to Dahlonega in a week or ten days, coming through Habersham county, Ga. While here he bought a nice nugget of gold taken from one of the mines of Lumpkin county.

Prof. and Mrs. Ferguson are going on a visit of about ten days to Virginia next Monday.

Tax Receiver Calhoun has been busy for several days, in getting his digest ready for business.

Andrew Edge, of this county, was arrested on a bench warrant by U. S. Deputy Marshal Grizzle and carried off to Atlanta last Friday.

A nice large photograph of Bunker Hill dredge boat will be mailed you for 27 cents including postage, by addressing The Nugger for it.

Marshal Grizzle and Collector Richardson went up into White county last week and destroyed a big illicit distillery near Bob Barrets. There was about 2,500 gallons of beer and other stuff.

A number of our citizens drove six miles down to hear Profs. Brackett and Anderson sing at Auraria. They will both be here on the 22nd with a class of fifty to exchange music with the old fiddlers. Let everybody come.

Many of the public roads are in bad fix now and will need immediate attention, but the question is who will fix them? The road hands under the old law, or the ordinary under the new one adopted by the last grand jury? We are no lawyer but our opinion is as well as others, that the new law went into effect as soon as it was passed upon by the grand jury in accordance with law and the old road law went out of force.

Manuel Garret and Frank Tolbert had a narrow escape from death at the Barlow on Friday night about 10 o'clock. They were down in the fifty-foot shaft. The cable, drawing up a bucket holding five hundred pounds, broke and fell to the bottom and sunk deep into the mud which was being cleaned out by two hands. It struck and loosened several sets of timbers and just did miss Manuel and Frank. Clyde Lovelace was at the hoist and when the accident occurred and had no other idea but what two hands had their lives crushed out when going to the mouth of the shaft. It was certainly a close call.

Tax Collector Walden thought that he was even with both state and county for last year in tax matters, but when he came to town Friday was informed that he was still due each on will land sales or settlements \$3.12 besides the cost, although the collector had made his settlement and believed it to be correct. It came about this way: Capt. Ingersoll had settled with Mr. W. S. Huff, the tax and cost on eleven lots, and Mr. Huff only accounted to the collector for the amount due on nine lots. Collector Walden seems to have some trouble with his tax matters. In 1903 he fell behind some and had to borrow money to straighten up with the state, and in 1904 he fell behind more and his bondsmen had to raise the money for him. So, it appears to be a troublesome job.

Joe Ash, who left this county to keep from being arrested by U. S. Deputy Marshal Grizzle not long ago, went out to Cherokee county and ran into the arms of an officer over there and is now in Fulton county jail. Joe had already served out one sentence for stilling and it has since been learned that he had a half interest in another illicit distillery. And this is not all. He was a witness against Fale Lee here in Com. Baker's court and failed to come, with no excuse, except that his wife was sick. He came against several other parties before, and when he saw that he was going to be prosecuted in the state court, it is said, for selling liquor, he didn't wish to come and get into any more trouble, but it seems that Joe's troubles have increased. It is claimed that a dream caused him to be absent from the second distillery when the revenue officers visited it, but he quit dreaming we suppose and had nothing to give him any further warning of trouble.

Persons wanting shingles should go or write to Hutchison Bros., Freda, Ga. tf

Mr. Boyd Gurley was awarded the contract of doing the college work mentioned last week in an ad. for \$53.90.

Latter part of last week Goodman Free got on a little too much corn juice in Dahlonega, resulting in his having to pay one and cost.

If the electric lights were allowed to burn some later on dark, rainy mornings it would be an accommodation to those who need them.

On Thursday night of last week Jones Anderson, of White county, was tried before Com. Baker and discharged on the charge of illicit distilling.

People cannot have much enjoyment in this life unless they spend a little money to bring it about. Neither can they make money before spending some.

A number of teachers are here this week attending the Institute. We welcome them. Dr. Glenn is the expert who has had something of interest to say every day and will until it closes tonight.

A certain farmer, who had a surplus of 200 bushels of corn at tax return day, would not give it in, claiming that he was going to swap it for coffee, flour, etc. But what about the oath he had to take?

NOTICE.—Prof. J. W. Boyd has for sale some nice furniture left in his includes by Prof. Calloway. The lot includes beds and bedsteads, mattresses, dressers, chairs, a large walnut wardrobe, etc., etc. See Prof. Boyd, who will sell this furniture cheap. 2t

The program for the fiddler's convention and picnic will be found on our first page. Read it and begin to tune up your old fiddle or banjo and be ready, for it is going to be a day of much enjoyment in Dahlonega. The second prize should read \$4 instead of \$5. It will also be observed that there will be some singing by note on that day, conducted by Mr. John Anderson, and every boy, girl, woman or man, in town or county, who can sing by note, are cordially invited to come and help, and those who can't sing are asked to come and listen. It will be one of the biggest days Dahlonega has had in many years. Again we ask you to come.

At the March term of the U. S. court in Atlanta, a number of persons residing in Lumpkin and likely other counties, forfeited their bonds. Some of these parties have been re-arrested, but no answer was filed showing why they did not appear when their trials were first set. Now the result is, if, as has been issued against their bondsmen for two hundred dollars each, causing trouble in the camps. "Smoking" Jim Anderson was one of the unfortunate persons, who was in town the other day to see if he could not be released. Hereafter both the defendant and bondsman had better be looking after their interests and pay up the cost at the proper time, for Uncle Sam has no foolishness.

The letter of Mr. Ben Self, in reference to his recent arrest up in Frogtown district, was received to our office for our last weeks issue. Mr. Self says that our informant was mistaken about the charge he was arrested on. He states that he never took down Mr. Grindle's fence nor dug up his mill road, but worked his own mill road. And says further that this is not the trouble. His family was getting water at Mr. Grindle's spring and had to pass through the old man's garden, who was tired of it and by some unknown cause got mad and put a stop to it, causing Self to have to go a quarter of a mile after water. Mr. Self says that Mr. Grindle has a grist mill and didn't have enough water to run it, causing him to get stung with his water, and that the mill "sucked itself," etc. The news of "Uncle Jim Grindle being stung" is new to the writer. He didn't use to be that way.

Mrs. Mary Marlow is up on a visit from Gainesville.

While the legislature adjourned for the 4th Representative Shultz came home.

Mr. Boyd Gurley and family went over into Union county on a visit this week.

Mr. and Mrs. W. B. Woodward came in last Monday for the purpose of making Dahlonega their future home.

The city tax assessors have completed their work and the valuation of property is a little more than it was last year.

The big rains are causing the farmers here to get behind with their work, some corn not yet worked over the first time.

It will be seen by a card elsewhere that Mr. T. J. Smith will take some boarders. His place is desirable, rooms well ventilated and fare good.

It our Fannin County correspondent wishes his side of the Mt. Lebanon trouble published he must be more mild with his words and to the point.

Mr. and Mrs. John H. Moore were called to the bedside of Miss Nina McClure, a sister of Mrs. Moore, last Wednesday who is very sick in Dawson county with typhoid fever.

Mr. W. B. Fry has a card in this issue. He has had much experience in the mines in both the West and South, and if you wish to do business with a reliable man Mr. Fry is the one.

An effort was made to return the Consolidated Co.'s property in this county for \$5,000 less than last year. Tax Receiver Calhoun refused to take it and an arbitration was had. On Monday the company selected Mr. Strickland and the receiver Mr. Boyd Gurley, both of whom agreed and fixed the amount of taxes same as last year, without any reduction.

McAfee Gaddis left this county about fifteen years ago, and it was believed by his relatives that he was dead, as he had not been heard of in eleven years, but imagine their surprise one day last week when a letter was received addressed to his parents or the next nearest kin, and upon opening, found it was from McAfee, who is out in Oregon. He thought too that his parents were dead, but both still live in this county.

Last Sunday, shortly after the Methodist church bell rang, people could be seen going in that direction from all parts of town, even before good dark. The old and the young, and members of the church whose faces are rarely ever seen during services. The house was crowded. Even some of the wine sellers were present. What did it mean? It was a temperance meeting and a fiddle was in the program.

As was announced, Prof. Chas. H. White arrived from Cambridge, Mass., this week with his class to examine the mines so as to give all with him a better knowledge of the business than what they can learn from the books. They intended reaching here on Sunday and remain a portion of two days, but were delayed on the way and did not arrive until Monday afternoon. They were met by Mr. Bainbridge, of the Consolidated, Mr. W. Crisson, of Crown Mountain, and Dr. Glenn, president of the college, who escorted them to the mines where they remained looking about until night. Early next morning, after giving their college yell, they departed. Besides Prof. White, those of his class along were: M. P. Mansell, New York; G. D. Scholl, A. H. Burns, H. C. Boynton, H. Humbart, Cambridge, Mass.; R. E. Clapp, Deaham, Mass.; L. S. Granger, Randolph, Mass.; H. M. Royston, New York; M. J. Connolly, Boston, Mass. It was a nice trip for them. Some of them had never seen a plum, gooseberry or blackjack sapling. They were a well behaved set of young men. Not an oath was heard from any of them.

Mrs. West, of Atlanta, is up on a visit.

Our Union county letter will appear next week.

There are already about 75 visitors at Porter Springs.

A picnic was enjoyed by several on the 4th in the Boyd grove.

We regret to learn that Mrs. Wier Boyd has been sick for several days.

Prof. E. B. Vickery and his family left last Wednesday to spend a few weeks with relatives at Hartwell, Ga.

The board of education of Lumpkin county, met last Tuesday and fixed the teachers' salary at \$20, \$25 and \$30, same as heretofore, provided the fund will warrant it, and it is believed that it will.

At Bruce's you will find ice for sale. And he keeps on ice, cream cheese, Red Rock Ginger Ale, soda water Coca Cola. Just received plum and apple butter, quince, apple, plum, raspberry, currant and grape jellies. Also mince meat, cranenuts, shredded wheat, &c., &c.

Mr. J. T. Miller, of Bunker Hill; Mr. Kiser, of the Etowah, and Mr. Rogers, of Battle Branch gold mines were in Dahlonega last Tuesday. Mr. N. C. Tank was also up. He too has a gold mine. It is not named yet, but he is about to sell it and the other fellow will do the naming.

The following school teachers have been attending the Institute here this week: Misses Mand Chester, Lela Hardeman, Ruth Wheelchel, Mattie Higgins, Mary Jarrard, Mrs. Burnett, Mrs. Ferguson, Mrs. Bryan, W. D. Seabolt, C. J. Jarrard, W. E. Bryson, E. A. W. Cochran, H. E. Wheelchel, J. A. Lance, L. K. Justice, Wier Gaillard, R. D. Smith, Robt. Jones, James Woody.

A number of the colored people attended a picnic down at Wimpy's mill last Tuesday. Billie Riley, Sam Castleberry and Eula Jefferson were the only grown male persons present. Each made a speech, and Eular remarked in his address that all the good negroes were there, causing one of the sisters not present, to fly off the handle at the remark. Another sister was present but her husband was absent, which also made her frown at Eular's remarks. The speaker's wife was also absent. We have not heard from her, but Eula has.

A message from Col. Farrow at Porter Springs on Wednesday morning gave a bad report about the party going up from Dahlonega to attend the first dance of the season at that place on the night of the 4th. He says that some of them got drunk and when starting back turned the vehicle over before getting fifty yards from the hotel. The Colonel treated them nicely. He is fond of nice behaved visitors, but wants none of this kind, and requests us to say that they shall not come about him any more. So boys, if you wish to shun trouble you had better remain away. Those acquainted with the Colonel already know this, but the old gentleman wants us to impress it upon their minds.

Two colored damsels who had fallen out about their spices the other day went out into the woods to settle it. They began picking and eating blackberries and talking the matter over to see if they couldn't settle the dispute without a duel as they had no seconds, but their words grew so warm that they loosened their dress strings, down dropped the garments and such fighting and scratching as occurred will long be remembered by a passer by who yelled out for the marshal causing the scene to close, by both disappearing. We once heard of two young ladies attending a campmeeting pulling off their fine hats, making preparations to shout for the congregation in order to increase the interest of the meeting, but we never knew of a couple dropping off their dresses to fight before.

The Cheerful Man.

"Fate itself has to concede a great many things to the cheerful man." The man who persistently faces the sun so that all shadows fall behind him, the man who keeps his machinery well lubricated with the love and good cheer, can withstand the hard jolts and disappointments of life infinitely better than the man who always looks at the dark side. The man who loves shadow, who dwells forever in the gloom—a pessimistic man—has very little power in the world as compared with a bright, sunny soul.

The world makes way for the cheerful man; all doors fly open to him who radiates sunshine. He does not need an introduction; like the sunlight, he is welcome everywhere.

A cheerful disposition is not only a power—it is also a great health tonic. A depressed mind makes the system more susceptible to disease; encourages its development because it kills the power of resistance. A cheerful soul can resist disease, and it is well known among physicians that there is a greater chance of recovery from exhaustive diseases of a bright, sunny soul than of a gloomy, despondent one. "Cheerfulness is health; melancholy, disease." Gloom and depression feed disease and hasten its development.—Success.

Ill Luck in May Weddings.

May weddings are supposed by many persons to be unlucky. It is a heritage from the ancient Romans. A May bride, says Ovid, is short-lived, his explanation being that the month included the celebration of the Lemuria in honor of the dead. Apart from any evil omen, such a time of mourning would interfere with the bathing and toilet arrangements that were proper preliminaries to weddings. Plutarch suggests that as April was the month of Venus, and June that of Juno, to select May was to slight those nuptial goddesses; or that June, as the month of the young (juniors), was preferable to May, the month of the old (majores). Ovid's "Mense malas malo nubere vulgi ait," (there is a popular saying that wicked women wed in May) was inscribed on the gate of Holyrood when Mary queen of Scots married Bothwell in May, 1567. What followed strengthened Scottish belief in Mary's unluckiness.

The loving angles constantly watch every one of God's children, and as they are ready for spiritual or material things the supply is at hand. As we grow in Spirit doors open that we little thought existed. God and the angels use the withholding power as well as the giving power—all in love and for our best interests. Some men would perform differently if they knew how they are watched by the Eternal Eye—the omnipresent God and the angels. Remember this all done in Divine Love without anger, wrath or desire to punish. God loves and never punishes His Children. We punish ourselves by not living with the one eternal, changeless law. With God it is not what we need. His love is so great for the so-called least or the greatest that He, in His Wisdom, gives us free will, and by Divine Wisdom His great and perfect plan is carried out in an orderly and progressive way, and in a while all reach infinite perfection.—Ex.

Keep Sentiment.

Life without sentiment is as insipid as a savory without salt. Yet when people marry they usually "settle down," which means they endeavor to look at everything from the common sense point of view, and forswear all the delightful nonsense which they indulged in when they were sweethearts.

Is it that rent, taxes, butcher, baker, and candlestick maker usurp the place given to romance?

Or is it that people always grow steeper as they grow older?

Is it possible that the wife cares less for love than the sweetheart used to do? Not in her heart of hearts, I believe. But once surrounded by it, she grows unconscious of it, and imagines it no longer of supreme importance, even making the hideous mistake of fancying it can be done without. Familiarity breeds contempt, and so she lightly prizes love to her own undoing.

Stick fast to the high ideals of courting days; don't let yourself be persuaded they are foolish old-fashioned; don't, when love becomes a daily certainty, fancy sentiment can be dispensed with, or you will wake up with a start one of those fine days and find to your cost that the future which promised to be so fair is stretching blank and desolate before your husband, or your wife, as the case may be, bears no resemblance to the sweetheart of years gone by.—Ex.

Read all the Postals.

Talking with a party of friends at a down town cafe the other afternoon, a traveling man told of a new experience he encountered in a little village not far from Philadelphia on his last trip out. He was standing at the window of the postoffice in this village while the mail was being distributed, when he noticed that the postmistress—who was certainly old enough to know what she was about—put the letters as she came to them in their proper boxes, but placed all the postal cards in a pile together on a shelf.

"What are you saving the postals for?" asked the traveler at last.

"Oh, I've got to read 'em all first," was the reply.

"Got to?" exclaimed the traveler, with an accent of surprise on the verb. "Why, how's that?" "I have read 'em, every one," said the postmistress, "to see that they contain nothing improper. It's a rule of the department." And she went on placidly with her distribution.—Philadelphia Record.

Blanks For Sale

At the NUGGER office you will find the following blanks: Warranty Deeds, Mortgage Deeds, Mortgage Notes, Mortgage Fisas, Chattel Mortgages, Plain Notes, Criminal Warrants, Peace Warrants, Options, Power of Attorney, Witness Summons, J. P. Summons, Justice's Court Fisas, Forfeiting Bonds, Constable's advertisements, Bonds for Title, Affidavit & Bond for Garnishment, Administrator's Deeds and Attachments.

APPLICATION FOR CHARTER,

Georgia, Lumpkin County
To the Superior Court of said County:

The petition of Craig R. Arnold, Wm. J. Haerther, both of Philadelphia; J. W. H. Underwood, of Cleveland; Wm. E. Price, of Dahlonega; and Rufus K. Reaves, of Athens, Ga., respectfully shows:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of

SOUTHERN POWER AND MILLING COMPANY.

2. They desire to be incorporated for the term of 20 years, with the privilege of renewal at the expiration of that time.

3. The capital stock of said corporation is to be \$1,500,000, all of which is to be common stock and the same is to be divided into shares of the par value of one dollar each.

4. They desire to commence business when said capital stock shall have been subscribed and actually paid in, and they desire to receive in payment of said stock, the license to use the Arnold-Haloid-Cyanide Process, and such Mining properties as said company may acquire by purchase, lease, or otherwise, that may be essential and necessary to its business.

5. The object of said corporation is pecuniary gain for its stockholders, and to that end they desire that said corporation shall be invested with power

(a) To mine for gold, silver, copper, and any and all other metals or minerals, and to quarry marble, granite or any other stone;

(b) To conduct a general mercantile business; to buy and sell to its employees and to the public generally, goods, wares, merchandise, machinery, mining supplies and utensils, electric supplies, and any other personal property;

(c) To own and control water rights and water powers, to develop water powers, to establish, install and maintain electric plants and to sell and furnish electric light and power to towns or cities and supply motive power to railroads and street car lines, and to supply electric light, heat and power to private individuals, private and public corporations and to the public;

(d) To construct and operate such telephone, telegraph and electric power lines as may be useful in the business of said corporation;

(e) To construct and operate such private tram-roads or railroads as may be necessary or convenient for the use of said corporation in the said prosecution of its enterprise;

(f) To carry on the business of saw-milling and lumbering and the grinding of grain.

(g) To operate a Process Treatment Mill for the reduction and extraction of precious metals.

(h) To construct and operate a Custom Mill and Sampling Works.

6. They desire the right to contract for, lease, buy and hold such real estate as may be useful or desirable in the conduct of the business of said corporation and to sell, lease, mortgage or otherwise encumber the same at pleasure; to issue bonds, notes or other evidences of indebtedness as may be proper in the business of said corporation.

7. They desire the right to exercise all such powers and to do all such acts and things as may be proper and needful in the promotion of the enterprises of said corporation and effectuating the various objects of the same.

8. They desire as such corporation to have the right to sue and be sued; to have and use a common seal; to make and prescribe such by-laws for its government as may be useful or proper; to constitute and elect a Board of Directors and such Officers as are usual; and they desire all such general powers and privileges as may be conferred upon and are incident to corporations of said State of Georgia, which under the laws of said State are chartered by the Superior Courts.

9. The principal office of said corporation shall be at Dahlonega, in said County of Lumpkin, State of Georgia, and petitioners desire that said corporation have the right to establish and maintain such branch offices, either within or without said State of Georgia, as its Directors may from time to time elect to establish.

10. They desire to maintain a beneficial voluntary relief and sick benefit and saving fund for the use of its employees.

Wherefore petitioners pray to be made a body corporate and politic under the name and style aforesaid, and that a Charter be granted them conferring the rights and powers herein set forth.

PAID & CHARTERED.
Atty's for Petitioners.
Georgia, Lumpkin County.

I, D. L. Cook, Clerk of the Superior Court of said county, do certify that the foregoing is a true copy of the application for Charter of the Southern Power and Milling Company, as appears from the records of my office.

Witness my hand and Official Signature, this 12th day of June, 1905.

How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat? Do you have shortness of breath, weak or hungry spells, fainting, sweating or choking spells, palpitation, fluttering, pains around the heart, in side and shoulder, or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance.

Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and dizziness, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and friends had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from asphyxiating. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better now than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for the Miles' Heart Cure I would now be in my grave."

L. C. CURTIS, Wilkes, Tex.
Dr. Miles' Heart Cure is sold by your druggist, and will guarantee that the first bottle will benefit. If it fails he will return the money.

Miles Medical Co., Elkhart, Ind.

A Doubtful Improvement.

A lady and her son, who lived in Hawaii, tells that their servants refuse to say Mrs. or Mr.

A young bride—an Irish girl—was much shocked at hearing a married friend called "Mar." by a servant, and instructed her husband not to call her by her Christian name, except when they were alone.

One day she had visitors, and what was her horror when the cook put his head inside the draw-room door, and said:

"My love, what vegetable you want today?"

John F. Stevens, of Chicago, has been appointed chief engineer of the Panama canal at a salary of \$80,000 a year. Pretty fair salary these so-called hard times!

Contest immediately after dinner.
1st prize—Gold Coin \$5.00.
2nd prize—Cash \$4.00.
3rd prize—Cash \$3.00.

Every one selects his own tune provided it is not played by note, as the object of the convention is for the benefit of the old time playing, something that will interest all.

Song—by John Anderson's class.
Music—by all fiddlers.

Awarding of prizes.
Competent judges will be selected so as to give each and every one a fair chance.

Every person playing a fiddle or any other kind of an instrument, is requested to come and join us, matters not whether you reside in Lumpkin county or not. You are welcome, for the gates of Dahlonega will be thrown open. Come, you let everybody come and help us make it a day of enjoyment.

The full afternoon program has not been made out but every one playing any kind of an instrument will be given a chance.
The convention and picnic will take place at the park, supplied with cold spring water and one of the prettiest places about Dahlonega. Let all come and bring a well filled basket.

Those desiring to enter the contest are requested to send their names to W. B. Townsend by the 19th of July.

Money is "Tainted."

A new angle has been given to the discussion of "tainted money" by Mrs. Wm. Connell of Staten Island, before Supreme Court Justice Kelly in Brooklyn, in response to habeas corpus proceedings by the husband who wished to obtain the custody of his child, Rena.

Mrs. Connell declared she would never live with her spouse so long as he continued to obtain money, as she put it, by gambling. Her husband was a good man and won heavily at the race track, she said; but it was against her religious training to use funds so obtained and, although Connell left large sums lying about on tables and in drawers for her, she refused to touch it and had returned to her parents, taking along the children.

Justice Kelly advised the woman to return to her husband, the latter having declared to the court that he was in receipt of a regular income, but the woman refused and the writ was finally dismissed.

Rome has a "dispensary," but the Rome Herald says the Chattanooga brewery is sending a glitzy-tongued saleswoman among the farmers of Floyd county and selling them beer by the keg, and the "farmers are drinking beer this summer who never drank it before." Now, how does that strike you? Blind tigers is not in it, yet Rome has both blind tigers and a dispensary, says the Marietta Journal.

The man who marries for money had better be sure she has a big pile, for you lose a vast deal when you lose love, besides, the heart that does not love at home will love elsewhere. The heart cannot be satisfied with money. When it is hungry for love it must be fed.
—EX.

Canada, Union County, Ga.
The Reason Why.

As we passed down a street in Dahlonega recently, we overheard a little girl ask: "Ma, who is that?"

"Oh, it is a Canadian." We met and asked a man where we could get some hay. "Ma," said the little girl, "do Canadians eat hay?" "Yes, my dear, if it has got whiskey on it."

Now, if we could persuade you editors that we don't eat whiskey, but just make and sell it for fun, and that the reason why we have church troubles and fights, is to advertise our stuff.

Why, sir, a few days ago John A. Downs visited us and knocked around Lebanon church to some still places, took a drink and left and went to Pleasant Hill church to some more still places, and from there to Mt. Airy to some more still places and didn't hurt anybody, touch anything nor tramp on anybody's toes. Elfriday says she thinks he allowed it was church property.

Uncle John says he don't want the Crumbies to compromise their case. The reason why, is that everybody wants to hear Col. Ben Posey and our William take a twist on the forum and there is two or three hundred dollars bet on the way it is knocked out. But our William will gain for the state if he tackles the right time of the moon.

Uncle John believes in the moon. He thinks if a child is born on the full of the moon, which is cabbage time, it will all go to head, etc., etc. He says he has no use for reforms. And the reason why, is they bring all sorts of vipers and bugs, railroads and new dirt roads—only bring tramps, Mormons, marshals and peddlers. Look at that feller, Wilson, at Washington, sending seeds all over the country that breed cabbage snakes, bull weavels and "tater" bugs, and now we are afraid to raise cabbage. We'll have no more eat—depend if the worms don't eat the "inards" out of the young "una" for the want of erout, licker, and the boll weevil. Then to send a feller to Gaitanbury for a little red pissant to eat 'um up and call it reform.

The summer fights opened at Stuches, Canada, recently, by little Sammy Waters throwing a quart bottle of stuff at Bud Seabolt. Bud made a straight shirt-tail for the woods. Little Sammy continued to paint, in vivid colors, until he ran across Judge William Davis, who made him dance at the muzzle of a six-shooter.

Up the Williams creek the fights opened Sunday the 2nd. The boys hearing of the contemplated coming of Marshal Downs, met to make a division of the stuff on hand. Little Henry claimed they had put so much ball potash in his share that it would not sell. He demanded a fair tote. They refused. He persuaded with a long rifle. They finally give in.

Elfriday sends her best regards to the little girl and her ma, and says she would like to have them visit us. And all you come and don't hang to that old copy book proverb: "That evil communications corrupt good morals."

CANADIAN.
"A woman in this town," says an exchange, "whose husband owes us \$4 on subscription, had the swiftest hat that was seen at church last Sunday, while our wife had to make a new hat by turning her old one inside out and putting

and EVERYTHING else.

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Thiefford's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and rump and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial.
It costs 25c. a can and saves ten times its price in profit.

PERRINSON, E. A., March 25, 1904.
I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose.
J. S. HASSON.

25 cents worth of trimming she bought at a bargain sale on it. It is such things as these, brethren, that cause us to regret that we spoiled a promising career as a preacher by becoming a newspaper man in this durned town."

At the recent commencement session of the Kansas Manual Training School the girls graduated in gingham dresses and calico aprons, while the boys wore overalls. Instead of delivering an essay on the Whiteness of the Whiteness of the Whence, the girls gave practical demonstrations in bread and pie making, sewing and sweeping. The boys got busy with saws and hammers, hoes and rakes, and other such implements. This is a good example for other schools to follow.

THE NUGGET.

DAHLONEGA, JULY 14, 1905.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:

\$1.00 12 Months,
50 cts. 6 Months,
30 cts. 3 Months.

Hon. Tom Hutson, of Sumter county, has been appointed commissioner of agriculture.

Mr. Hall, of Bibb, wants the legislature to appropriate \$15,000 to erect a Gordon monument.

Lee Cato, a young white lad of about 19 years of age, was killed one day last week in Hall county by lightning while hoeing corn.

Hon. O. B. Stevens, commissioner of agriculture, has been appointed railroad commissioner by Gov. Terrell to succeed Chairman Pope Brown.

Hon. E. H. McMichael has introduced a bill in the house to provide for the levying and collecting of a local tax by counties for educational purposes. We told you of this at the last election.

Hoke Smith says his call to the governor's chair is divine. This reminds us of the man who heard a call to preach while he was grubbing in a new ground one hot day in August, adds the Commerce News.

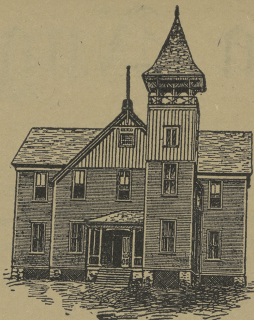

A bill has been introduced in the legislature to relieve from taxation all cotton in the hands of farmers for one year. This won't do the small farmers any good, but such wealthy men as Jim Smith will be benefitted.

A negro was lynched in Arkansas last week because he ran away with the young daughter of a farmer. She was only sixteen years old, but knew better and ought to have been led to believe that she too was going the same route.

A special from Memphis, Tenn., last week, reported the death of E. P. Evans, of Cleveland, O., who was pushing a wheelbarrow on a journey of 10,000 miles for a wager. He was accidentally shot by his own pistol which dropped from his pocket. He had nearly completed his long journey.

The Eagle says that Ex-Tax Collector Mel Charles, of Hall county, has recently made a settlement and turned over to the authorities not much more than \$300 worth of insolvent f. fas. This is remarkable well for a big county like Hall, and shows that the constables down that way are very active. This is food for thought for the collectors of Lumpkin who turn over about this much (and sometimes more) on the insolvent. This is carelessness on the part of somebody, for nothing a man has is exempt from taxes. Besides this, peoples' wages can be collected by a garnishment. Let all be more diligent in our county hereafter so taxes will be more equal.

The term of office of United States Internal Revenue Deputy Collector Hymen L. Richardson expired June 30th and that capable officer of Uncle Sam received notice that there is no further appropriation available for the payment of his salary. He is consequently without employment. He was one of the special war revenue officials. Three of the collectors' terms expired last year, the remaining three went out this year. He has made a vigorous and faithful officer and his many friends will be glad if he shall receive a better appointment to the service somewhere than even the one he so well filled. The business will be in the hands of Officer Hinton of Atlanta and Brown of Athens. With these officials at some distance and unacquainted as yet with the lay of the country in the mountain districts it is expected that moonshine business will be on a boom for some little while.—Eagle.

Dahlonega Graded School.

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Rents are cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination. If cheap living, low rates and a nine months school absolutely free for your children is not an attractive proposition, where will you find one? W. L. ASH, Principal.

The price of cotton is still advancing.

Up to Monday morning 350 new bills were piled up on the clerk's desk in the legislature.

The cyclone which passed through Montague, Texas, last week, killed many persons.

Rev. W. H. Sutton, while conducting a revival at Sparta, Tenn., dropped dead in the pulpit the other day.

The court, which is going to bring about peace between Japan and Russia, will meet at Portsmouth, N. H.

One bolt of lightning burned up a block of business houses in Sweetwater, Tenn., the other day. Damages \$60,000.

On Sunday night at Iola, Kansas, temperance cranks dynamited and wrecked many buildings. Damages \$100,000.

Mr. Dock Gooch, who is well known in Lumpkin county, died last Monday morning at his residence in Dawson with a relapse of pneumonia fever.

The Social Circle New Era says that Prof. J. F. Broach, a graduate of the N. G. A. College, has been elected principal of the New Jersey High School.

The legislature has before it a bill to make it a misdemeanor for any person to appear or go upon, or enter any street car, railway car or railway station.

When the rest of the candidates quit running so fast for governor and get cool Col. Estel will likely get in the road, for neither of the others are fit to occupy the position if all they say about each other is true.

Last week lightning struck a magazine near the suburbs of Atlanta, causing an explosion, practically demolishing one house, damaging two others and painfully injuring six people. Lumber from the house was found half a mile away.

In order to ease his conscience, John D. Rockefeller has pitched out \$10,000,000 for education, not a cent of which will reach the people who are really in need of it. A slight advance in oil and John D. will have his money back from those same people who will not be benefitted, says the Dalton Citizen.

Mr. Smith, of Green county, has introduced a bill providing for the amendment of the pension bill in two particulars: He wishes the pension law so changed that blind soldiers can draw a pension, even though the blindness was not due to wounds received in battle, and has developed since the close of the war. He also wishes to make indigent widows of soldiers, who married after the war, eligible for pensions and placed on the same footing with the widows of soldiers who married before or during the war.

James B. Gaston has been re-appointed U. S. Commissioner at Gainesville, Ga.

Mr. and Mrs. John H. Moore are still down in Dawson county. We are glad to state that Mrs. Moore's sister is a little better at this writing.

All who are indebted to Cavender's Creek Mose Co., either by note or account, must settle at once as there is a change in the business. Settlements must be made. Come and save cash. C. C. MOSE CO.

Across the Blue Ridge on the glorious 4th a rattlesnake, which was out on the road enjoying the sunshine of the day, bit James A. Gilreath on the ankle as he passed by, so he says. Jim was so full of corn juice that the bite had no effect on him until he went out into the field to work a couple of days afterwards, when he had a spell and almost went crazy.

Hon. Carl Shultz, of Lumpkin, has been appointed on the following committees in the house: Education, special agriculture, University of Georgia and its branches, wild lands, roads and bridges, state of the republic and privileges on elections. Besides being appointed chairman of the committee on mines and mining, Senator Lumsden has been appointed on five other committees, as follows: Penitentiary, education, finance, immigration and temperance.

A telegram from Asheville, N. C., of the 10th says: What is said to be one of the largest hardwood lumber deals ever consummated in the South was announced here today. By it the North Georgia Company, a corporation composed of New York, Michigan and Georgia capitalists, acquires about 50,000 acres of hardwood timber forest in western North Carolina and northern Georgia from the Tallulah River Lumber Company for a consideration of \$250,000. The work of marketing the lumber will begin at once, and plans are being consummated, it is stated, for developing valuable mineral deposits on the property.

ROYAL BAKING POWDER
Absolutely Pure
HAS NO SUBSTITUTE

Auraria Dots.

The rain! The rain! It rains nearly every day.

Miss Gertrude Holmes commenced her school here last Monday morning. The attendance is very good considering the bad weather.

Mr. C. R. Arnold, who for some time has been on a visit to the north, returned to the Betz mine here a few days ago.

After quite a little stay here, Mr. Louis Strause, left for Birmingham, Ala., last Saturday.

Mr. T. M. Keyser, after a long stay here looking after the Etoah gold mine, left for New York last Monday. From there he will shortly sail for South America. Mr. Keyser, during his stay here, has made many friends, and our best wishes go with him.

GUESS WHO.

The member of the legislature who will introduce a bill this session to repeal the present unjust schedule law, and succeed in passing it, would certainly get a feather in his cap. All laws like this that openly rob the people should be blotted out forever.

Some of B. R. Meaders & Sons Prices.

Did you ever stop to think what you save by getting for four cents what the people pay five cents for? One cent saved in a five cent trade makes you save twenty cents on every dollar spent. If you get one dollar per day for your work and save one cent in five, it amounts to getting one dollar and twenty cents per day. If you get one dollar per day for your work and lose one cent on every five cents spent, you only get eighty cents for the work. Count 312 days in a year, 20c per day saved, makes you receive for your work \$374.40, but do not take the advantage of that one cent in five saved and you only receive \$249.00, losing in one year, by not being a wise, close buyer, one hundred, twenty-four dollars and eighty cents, or almost five months time at \$1 per day. So one cent saved on one dozen jar rubbers is a greater thing than at first appears.

We not only offer a few items at a reduced price as leaders, but through our whole line we make the same per cent reduction that is made on the small articles. A few of the small articles:

Fruit jar rubbers 4c doz. Brass shoe tacks 4c, 8 papers for 10c. 5c mouse trap 3c. 6-cent calico at 5 and 5 1/2 cents. 10c buggy whips at 8 cents, 15c buggy whips at 10c. 10c lard at 8c. 7 1/2c rice at 5 1/2c. 5c cup 2c. \$1.25 dress shirt 93c. \$8.00 mantle clock \$2.25. \$2.50 8-day clock \$1.93. 7 balls white thread 5c. We save you from 10 to 50c per pair on shoes and have a big stock for you to pick from. We sell at the above prices to everybody whether you request the lowest price, or whether you send your child to trade for you.

B. R. MEADERS & SONS.

Boarders Wanted.

Eight boarders wanted by T. J. Smith on Clarksville street at \$15 per month. One of the most desirable places in Dahlonega for summer visitors. Nice rooms, fair splendid.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

Local News.

Try on some letterheads and envelopes.

Rev. J. W. Boyd will preach at the M. E. church next Sunday.

Prof. B. P. Gaillard returned from Griffin last Sunday, accompanied by his mother.

Ben Satterfield was fined one and cost last Monday by Mayor Baker for disorderly conduct during commencement week in Dahlonga.

Mr. W. L. Ash and Mr. W. P. Linsford, who graduated at the N. G. A. College, left here last Sunday for Athens, Ga., for the purpose of taking a normal course.

The other day, while enjoying a game of base ball, Fred Craig accidentally struck Rufe Ed Baker on the forehead with a bat, making a gash long enough to require three stitches.

John Ridley, the Porter Spring mail carrier, came in last Monday pretty sick. He had been dipping snuff and it didn't agree with him, causing him to be behind fifteen minutes.

Did you ever think about having people in Dahlonga who will pretend to like you well enough while in your presence to eat you up, and then as soon as your back is turned go to cursing you? The devil is sure to catch all such deceitful people.

Mr. Boyd Gurley returned from across the Blue Ridge last Friday. He attended the celebration of the 4th at Mt. Lebanon and reports everything as having passed off quietly and peacefully. Many speeches were made and everything was discussed from the creation of the world up to the 4th.

Col. R. H. Baker, of this place, has been re-appointed U. S. Commissioner by Judge Newman. His commission came last week during his absence. It is useless to say that Col. Baker's official acts have been perfectly satisfactory to the government, for his appointment several times without opposition, is sufficient proof.

Something like two weeks ago Mrs. H. E. Watson, of Dahlonga, received a letter from her husband at Red Jacket, Ky., stating that he would start home in about two hours. That afternoon or the next day, a stranger with "Watson" on his hat band was killed by a car in Atlanta. The husband so far has failed to reach home.

Revs. Mr. Smith and J. N. Austin will preach at Rock Spring church on the 5th Sunday in this month. The church is said to be getting cold, religiously speaking, and these divines want to see if they can't wake things up out there. And if Uncle New doesn't, it will be the first time that he has failed. An all-day singing will also take place on that day.

At a special election for squirrel out in Mill Creek district last Saturday, Mr. John Fletcher was elected Justice of the Peace over his opponent every vote except one. During the day Calvin Perry and Sherman Baker fell out and got so mad that those present imagined that they smelled blood a time or two but it proved to be a mistake and no damage was done.

As stated last week, Sheriff Davis was called upon to go out and arrest John Bensley, the escaped convict. He went but failed to capture his game. Although it was reported that John was in a boat fishing and cursed out a young man, his father was in Saturday telling that it was not John. The old man says on account of being clean shaven, he has been taken for John several times, and that the man wanted is not in this country. Not long ago, a man was supposed to be John Bensley, was found sitting up against a tree asleep with two pistols, and a shotgun across his lap. Was this the old man? If so, the citizens out there are wondering why the father is sitting about in the woods with such weapons in his possession.

Murray has recently killed a number of cattle in this county. Send \$1.75 cash and get 1,000 envelopes printed at this office.

The price of oats opened out in Dahlonga at \$1.75 per hundred.

Mrs. H. D. Gurley spent last Sunday with relatives at Auraria.

Persons wanting shingles should go or write to Hutcheson Bros., Freda, Ga. if

New subscribers continue to come in and ye editor is as happy as a dead pig in the sunshine.

Twelve kinds of biscuits, made by the National Biscuit Co., has just been received at W. P. Prices.

Mr. Vandivier, the county school commissioner of Dawson, was up on business a short while last Friday.

Mrs. Pattie McDonald, of Gainesville, is here on her way to Porter Springs, where her husband is in business.

Mr. Ed McDonald, who resides near Dahlonga, will leave for South Georgia today to look him out a new home on the farm.

Mr. Breyman, president of the Standard Gold Mining Co., and Mr. Shaw of the Consolidated, arrived in Dahlonga last Friday.

That male and females drunken street parade through the rain the other night was about as ridiculous looking sight as Jonathan Gileath's 4th of July March across the mountain.

Mr. Hughes Anderson killed a coach whip snake the other day seven feet long. It had its head about two feet above the ground, preparing to give Hughes a race and he had to fight or run.

We heard a certain Dahlonga merchant say the other day that he would be one of ten to put in \$1,000 to build a \$10,000 hotel here. This shows that there is life in the old land yet, railroad or no railroad.

At Bruce you will find ice for sale. And he keeps on ice, cream cheese, Red Rock Ginger Ale, soda water Coca Cola. Just received plum and apple butter; quince, apple, plum, raspberry, current and grape jellies. Also mince meat, grapes, shredded wheat, &c.

There is a man in this town who says that he killed seven deer at one shot some years ago. His word cannot be disputed by religious people well, because he is a deacon in the Baptist church. The next time Teddy goes a bear hunting we want him to send for this man. He is a republican and there is no telling what the two together can kill.

All persons who signed a petition, agreeing to contribute money to fix up the park, have not paid it in yet. Pay up before next week, as we want to publish the list of contributors, that are willing to help in the way of improvement by reaching their hands down into their pockets. Your name on a paper does not mean anything unless you do this.

Although the morning sun was covered by clouds last Friday, the Sunday school children and their parents all went out to the park on that day and enjoyed a big picnic. There is nothing that children enjoy better than picnics, and we hope now since such a nice place has been prepared for these occasions, that they will be had more often in the future than they have in the past.

Mr. W. G. Campbell left this week for Bedford City, Va., where he goes to accept a position in the asbestos mines. Mr. Campbell has been in charge of the Singleton mine here for a long time, and was liked by both his hands and employers. He has made the mine pay, and was so honest and agreeable that it was against the wish of the managers for Mr. Campbell to leave, but having made arrangements some time ago to move, did not wish to disappoint the parties who had employed him. The gentleman and his family carry with them our best wishes.

Mr. M. N. Littlefield, of Gainesville, came up on a visit to his brother this week.

The almost incessant rains here this week have caused a suspension of all outdoor work.

The postmaster does not keep stamps on deposit at our store now. B. K. MEADERS & SONS.

Mrs. Brenson, of Raleigh, N. C., arrived here last Monday on a visit to her daughter, Mrs. Marchman.

Mrs. W. H. Jones, after a few weeks visit to her friends down in Dawson county, returned last Monday.

Any party buying mutton sheep to ship north and wants to sell the ewes address Frank Rook, Blue Ridge, Ga.

There are thousands of potato bugs with us yet. And now that the potato tops are about out, they are using tomato leaves for food.

That's right, don't forget to renew your subscription to THE NEWS when your time expires, for we might forget to send it otherwise.

Col. Charters will leave for Gainesville next Sunday to be ready to begin his duties in the two week's court of Hall, commencing on Monday.

Dr. Glenn, president of the N. G. A. College, is now in Atlanta in the interest of this institution, endeavoring to show the members of the legislature its many advantages.

Judge Evans requests us to state that the blanks for new applicants for state pensions have been received at his office, and all those wishing to make out claims are expected to come forward at once.

Isaac Brown, died at his residence in Martin's Ford district on last Sunday. Mr. Brown was an old confederate soldier who was drawing a state pension at the time of his death. And thus another veteran has gone to join his many comrades and receive his reward.

Col. Farrow writes that what he said last week in reference to the parties from Dahlonga who visited Porter on the fourth, he didn't mean for the sober ones to be debauched from the pleasures of his most favorite summer resort, but it was meant only for the two who got drunk.

Mr. John Sargent, of this county, is much more fortunate than any of the rest of the farmers of this section, on account of being done laying by his crop. The rest like several days and some of their crops are in a bad shape and no chance to work it for the continuous rains.

Last Monday morning much of the land was dry enough to plow and every person tilling the soil was up bright and early ready for business. We met one woman before sunrise making her way out into the country three miles to plow. But before night the heavy rains began again causing all the farmers to cease work. Wednesday up in the morning it cleared off.

The fl. fas., referred to recently in this paper, as having been issued against parties in this county by the United States, did not mean any cases of late date, so Marshal Grizzle informs us. It was cases of some four or five years ago, where they were disposed of and no attention had been given them by defendant or securities of forfeitures. Judge Newman has already set some of these fl. fas. aside.

In a conversation with postmaster Tate this week about the hundreds of pennyweights of gold we were shown on Monday by Mr. Craig R. Arnold, general manager of the Southern Power and Milling Co., and the many large nuggets in his possession. Mr. Tate told us that he saw the big one which Mr. J. R. Lundson, of White county, picked up in his garden about 25 years ago, weighing 355 pennyweights. Mr. Lundson is now chairman of mines and mining in the Georgia Senate.

Mining News.

Sam Castleberry, colored, who never fails to make mining pay, rigged him up a giant last week and is now operating it down at the Hand mine.

Down at the Battle Branch it is the intention of Mr. Rogers to sink a shaft and get down under the old works where Mr. Hockenbush made so much gold, getting rich in a few days.

Another hand or two has been added at Crown Mountain shaft. By starting the pump early the shaft is drained of water by 8:30 or 9 o'clock a. m. Then the rest of the day is consumed in drilling by hand.

Mr. H. F. De Neefe, of Chattanooga, Tenn., who is mining for mica near the foot of the Blue Ridge in this county, was among the visitors here this week. Mica is very valuable when found in good size pieces clear of streaks, and it is thought they have it up there.

Very often we are written to for the names and addresses of officers of the different mining companies doing business in this county by parties who wish to correspond with them. When we know the addresses we give them with pleasure but some times we are unable to give the street and number and there is no way to reach them. By a small ad in THE NEWS this trouble could be overcome and we are satisfied prove of benefit to all interested. We are satisfied all companies meaning business will do this.

The ore down at the Barlow is very rich, but the continuous rains prevents the delivery of any wood to supply the engine, causing a suspension of work last Tuesday until the rains cease, having a small supply of fuel on hand to enable them to keep the shaft about clear of water for a short time only. This shaft, known as the Ogle, was started in a deep cut, and is about 300 feet deep from the surface where the cut was started. The vein gets richer, proving that there is gold deep down here as well as in the west.

A party of gentlemen in Kansas City have purchased the "Belle Branch property" near the Brar Patch, in Auraria district, and have made application for a charter to the Superior court asking to be incorporated under the name of "Mountain Valley Mining Co." This property consists of 200 acres of virgin placer ground, besides numerous veins in the hills, the placer having never been worked, but having been kept as a farm and not worked for a mine. Judge Kimsey will be over in about four weeks and grant a charter to this new company, with office at Auraria, and after organization work will begin in earnest and we predict for this enterprise abundant success in our gold fields. From what we know of this property it is a good mine, and properly developed we have no doubt of the result.

Mr. Breyman, the president of the Standard Gold Mining Co., is well pleased with things down at the Singleton, and says that he desires to sink the shaft until it reaches a depth of 1,000 feet. Mr. Campbell, the superintendent, who has just left for Virginia, with his most excellent judgement has the mine in fine shape. Although the ore is inconvenient to the mill and has to be trammed more than a quarter of a mile by horse power the mine is paying. It is the intention of the manager to move the mill near the cut where its capacity can be doubled with the same expense. The calculation is that what it will cost to do four months framing will move the mill. The three years work already in sight is very encouraging. Mr. Breyman says that the mines here have never been tested like those of the West and no one will ever know any thing of the value of the ore deep below the surface until an effort is made in this direction, and he is willing to spend the money for a test. This gentleman has large

investments in this section and we wish him success in all his undertakings.

Mr. Craig R. Arnold, accompanied by Mr. W. J. Haether, of Phila., and Mr. E. Legg, of Kansas City, were registered at Hall's Villa last Monday evening. Mr. Arnold, who is the general manager of the Southern Power & Milling Co., which is here incorporated, tells us that so soon as the charter is granted his company is prepared to go right on with the erection of machinery on the Etowah and Loud mines. The party were on their way to the Loud mines and had a case of the finest lot of specimens ever seen in this country before and when the proper machinery is put to work on the several properties we are inclined to believe that this will be one of the most successful operations in the south. The erection of the custom mill, where any one can take his ore to be milled, will open up an era of prosperity for the individual miner, who will hail with delight the prospects of working his own property however humble it may be. Mr. Arnold tells us it is not the intention of his company to do the mining. They propose furnishing the electric power, to operate the small pumps necessary to drain the shafts of the operators and perhaps hoist the ore buckets as well. As the company owns some valuable properties it will be in a position to lease parts of it to reliable operators who can in turn be assured of the opportunity of having their ores properly milled.

The Fiddler's Convention.

The fiddler's convention on the 22nd is going to be full of interest and enjoyment and one of the big post days Dahlonga has had in a long time. Musicians will be here for miles around. Some are coming to enter the contest for the prizes and others will be on hand for pleasure. And to add more interest Profs. Bracket and Anderson, the leading singers of this whole county, will be here with their note books and a class of fifty persons to furnish vocal music for the occasion. Both old and young are invited to come and be with us. Nothing will occur to mar the feelings of the most fastidious. Let everybody come and bring a well filled basket so as to make it the greatest picnic that has occurred in this county since the civil war. Send it rain on that day to prevent the convention meeting at the park the fiddlers contest will take place in the courthouse, so as to have no disappointment.

The Dahlonga Graded School.

On last Friday the board of trustees of this institution finished up its work and has elected a full corps of teachers with Mr. W. L. Ash, of Union county, as its principal, a graduate of the N. G. A. College. All have accepted.

Mr. Ash was born in Lumpkin county, and grew to manhood with very steady habits. He has many years experience in teaching and returns highly recommended by the people of every section where he has taught, and we predict for the school the greatest year of success since its establishment.

This school is doing more good in the way of education than any other institution that we know of in the state of Georgia, and it is a pleasure to everybody here to see the many little bright eyed boys and girls attending in such glee, denoting its prosperity. We are informed by the faculty of the N. G. A. College that the pupils of this school who enter that institution show marked ability of the training in the same, proving that an early training in education is very important, and we say without fear of contradiction that with this institution to start from parents cannot go to any town in the state and find equal advantages in the way of education as that of Dahlonga. Here you get from the kindergarten to a finished collegiate education.

Death of H. F. Anderson.

Mr. H. F. Anderson died very suddenly at his residence in Dahlonga last Wednesday morning at about 12 o'clock, of paralysis, being another one of Lumpkin county's oldest and most highly respected citizens, causing a gloom of sorrow to spread over the entire community. Mr. Anderson had gone out that morning to make some repairs on the interior of his stable. At about 8 o'clock the hammering and sawing ceased and soon thereafter an unusual noise was heard in the stable by his wife and one of her neighbors, Mrs. W. S. Huff, who went in and found the old man where he had dropped, lying both helpless and speechless. While Dr. Jones was being summoned male help was called in to aid and the old gentleman was carried to his house. He was only stricken in his right side and motioned with left hand, apparently wanting to say something, but he grew weaker and weaker until death shut off the light of the world to this good, kind hearted old gentleman forever. The deceased was born in this county April 8, 1836, in which he resided all his life except a few years absence in Tennessee and California. A wife and several daughters and three sons survive him. Preparations are being made to inter his body in the Dahlonga cemetery as we go to press.

APPLICATION FOR CHARTER, Georgia, Lumpkin County.

To the Superior Court of said County.
The petition of Geo. A. Neal, of Kansas City, state of Missouri; Henry A. Buell, of Aurora, state of Missouri, and John A. Taylor, of Grady, state of Illinois, respectfully shew:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of

"MOUNTAIN VALLEY MINING COMPANY"

2. They desire to be incorporated for the term of 20 years, with the privilege of renewal at the expiration of that time.

3. The capital stock of said corporation is to be Five Hundred Thousand Dollars (\$500,000) divided into shares of the par value of One Dollar (\$1.00) each, and petitioners desire the privilege of increasing said capital stock from time to time to a sum not exceeding One Million Dollars.

4. All of said capital stock is fully paid up and non-assessable.
5. The object of said corporation is pecuniary gain for its stockholders, and especially the carrying on of mining operations, mining and dredging for gold and other minerals, working and collecting placer deposits of minerals, and gold bearing rocks and clays and gravels, the building, erection and working of smelters, stamp mills, and any and all kinds of machinery, devices and appliances for producing and saving minerals; to develop water power and the use and sale of such power; to build and operate such railroads and tramways as may be necessary for the profitable conduct of its business; to buy and sell real estate and personal property; to do a general merchandise business, and do all such acts and things, and to exercise all such powers as are necessary and usual in conducting the business of mining, dredging, merchandising and dealing in real estate.

6. Petitioners desire as such corporation to have the right to contract for, lease, buy and hold such real estate as may be necessary and proper in the conduct of its business, and to sell, lease, mortgage or otherwise encumber the same; to issue bonds, notes or other evidences of indebtedness as may be for the best interest of the corporation to be determined by the board of directors.

7. Petitioners desire as such corporation to have the right to exercise the privilege of eminent domain as is provided by law for such corporations.
8. They further desire as such corporation to have the right to sue and be sued; to make and use a common seal; to make and prescribe such regulations and by-laws for its government as may be necessary and proper and not inconsistent with law; to constitute and elect a Board of Directors and such Officers as may be usual and as shall be prescribed by such by-laws and as such corporation, they further desire all such general powers, rights and powers as are incident to corporations of like character.

9. The principal office of said corporation shall be at Auraria, in said County of Lumpkin, State of Georgia, and petitioners desire that said corporation have the right to establish and maintain such branch offices, either within or without said State of Georgia, as may be deemed necessary as may be fixed and determined by the stockholders of said corporation.

Wherefore petitioners pray to be made a body corporate and politic under the name and style of said corporation and that a Charter be granted them conferring the rights and powers herein set forth, and petitioners, their heirs and assigns will ever pray.

W. S. Huff, Attorney for Petitioners.
J. D. L. Cook, Clerk of the Superior Court of said county, do hereby certify that the foregoing is a true copy of the application for Charter of the Mountain Valley Mining Company, as appears of file of my office.
Witness my hand and Official signature, this 10th day of July, 1905.

**BILIOUSNESS
AND
CONSTIPATION
CURED BY
THE DRAUGHT
OF
THE DRAUGHT**

Because the liver is a perfect people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown. The Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and vitiate the entire system.

Timely treatment with The Draught's Black-Dragee removes the dangers which lurk in constipation, liver and kidney trouble, and will positively forestall the incursions of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c package of The Draught's Black-Dragee.

Program Fiddler's Convention
Dahlonega, Ga., July 22, '05.
11 o'clock, a. m.

Address of Welcome—by Mayor R. H. Baker.
Dixie—by all fiddlers present.
Music—by the string band.
Katie Hill—by W. H. Satterfield.
Dinner.

Contest immediately after dinner.
1st prize—Gold Coin \$5.00.
2nd prize—Cash \$4.00.
3rd prize—Cash \$3.00.

Every one selects his own tune provided it is not played by note, as the object of the convention is for the benefit of the old time playing, something that will interest all.

Song—by John Anderson's class.
Music—by all fiddlers.
Awarding of prizes.

Competent judges will be selected so as to give each and every one a fair chance.

Every person playing a fiddle or any other kind of an instrument, is requested to come and join us, matters not whether you reside in Lumpkin county or not. You are welcome, for the gates of Dahlonega will be thrown open. Come, yes let everybody come and help us make it a day of enjoyment.

The full afternoon program has not been made out but every one playing any kind of an instrument will be given a chance.

The convention and picnic will take place at the park, supplied with cold spring water and one of the prettiest places about Dahlonega. Let all come and bring a well filled basket.

Those desiring to enter the contest are requested to send their names to W. B. Townsend by the 10th of July.

The Public Schools.

Below is a list of public schools and teachers of each in Lumpkin county:

Grace school—Miss Donna Thompson.

Garland—W. D. Seabolt.

Wahoo—Miss Lillie Kinsey.

Glenn—C. Shultz.

Seven Mile—D. S. Starr.

Ashley—C. J. Jarrard.

Keystone—H. E. Wheeler.

Auraria—Miss Gertrude Holmes.

Fairview—Miss Lela Hardeman.

Betz—Miss Mand Chester.

Forest—W. F. Bryson.

Nimblewill—E. A. W. Cochran.

Jones' Creek—Miss Canda Bryan.

Center—B. F. Davis.

Hill Top—Mrs. Mary McGee.

Curry—Vier Gaillard.

Garnet—H. J. White.

Lewis—W. M. Grindle.

Lydia—Miss Mary Jarrard.

Pisgah—M. L. Seabolt.

COLORADO.

Mt. Zion—May Wright.

Hickory Grove—Alice S. B. Cook.

Keith—Mary Clark.

A young lady not far from this town recently had a quarrel with her beau and returned to him all the letters and little gifts she had received from him during their courtship. He, not to be outdone, sent her a half dozen boxes of face powder, and with them a note explaining that he had probably carried that much away from his coat collar.—Princeton, Mo., Post.

A Story of Atlanta.

She, the inmate of a Collins street house of prostitution (the property of which was owned by a member of the Methodist church) had decided one beautiful Sabbath morning to live a different life, and she got her few belongings together—very few they were indeed—here a little keepsake from a dead brother, another from her poor mother, all valueless only to her, who prized them above all earthly things, for they were remembrances of her past purity. Placing them all into a worn hand-bag she fell upon her knees and asked God to give her strength that she might go and seek pardon and forgiveness in one of our leading churches here.

Finally she walks down the street, up the great stone steps into what should be the house of God—a church. Away back into the corner she seated herself and had hardly done so when an usher who had frequented her abode, saw and knew her. A hurried conversation with other church officials. Then the usher went to her and said: "Jane, what are you doing here? You don't belong here. Go back where you do belong." And the poor, saddened seeker after God's forgiveness arose with tears in her eyes and walked back to her home and a life of sin.

We have drawn no fancy picture in the above, but one that actually occurred in Atlanta not long ago and sustains our assertion too often made that the devil is quartered in many of our high-toned churches, and debars the way for those who really seek God.

Prostitute renters and patronizers should not be leaders or quartered in God's holy church, and a church that tolerates such sinners should never expect to receive the Lord's blessings.

The church should be the house of God, where sinners who seek Christ would find Him and receive a welcome into His house by Christians and not by the agents of the devil.

A reformation in churches is badly needed that will cleanse them of their hypocritical members, and when this is done, God will not only shower His blessings upon them, but they will truly be as great deacon lights to guide the weary sinners who seek salvation and bring them into His kingdom.—Southern Star.

Bee Hive in Her Parlor.

In the heart of London over a half a hundredweight of honey-comb has just been gathered. The bees responsible for this rich harvest belong to Miss Baden-Powell, sister of the hero of Mafeking. These wonderful bees are the subjects of an interesting experiment. They had been removed from an old residence in Piccadilly to Miss Baden-Powell's new home at Prince's Gate.

During their fifteen years in their old quarters the bees never failed to store up large quantities of honey, and were quite content to live in the drawing room, where their specially constructed hive, invented by Miss Baden-Powell, stood on a table near the window.

"The mystery is where they fed in order to make their honey so excellent and in such quantities," said Miss Baden-Powell, "for there was no garden attached to the house."

In their new home at Prince's Gate the bees come and go through a passage in the wall as before, and Miss Baden-Powell is watch-

**Neuralgia
And Other
Pain.**

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves. The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.

Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia. They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.

"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules, until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in five minutes time." FRED R. SWINGLEY, Cashier 1st Nat. Bank, Atkinson, Neb. Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 cents, 50 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

ing anxiously for signs of discontent, which she hopes will not be shown.—Montreal Herald.

The value of a local newspaper to a community is frequently underestimated. Too many do not realize that every week the paper goes to hundreds of homes telling its story of news, urging public improvement, championing the cause of the people and heralding the advantages of the community in which it is printed. It chronicles the births, marriages and deaths, records new buildings and land sales and tells a thousand things of value and interest to the citizens who want to keep informed. No matter in what community you live always subscribe for the local paper.—Marietta Journal.

Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:
\$1.00 - 12 Months.
50 cts. - 6 Months.
20 cts. - 3 Months.

The new bills in the legislature will soon reach the 500 mark.

The Rose bill to disfranchise the negro has been introduced in the legislature.

The smoke in the edge of Georgia from the Ducktown copper mines, has caused the legislature to take the matter in hand again.

In the last two years the county treasurer of Fannin, has received from the Solicitor General more than two thousand dollars in fines and forfeitures.

The exposure of Edward S. Holmes, the associate stationer, for furnishing cotton speculators with advance information, has created quite a "stink."

Statistics published by the North Georgia Citizen, at Dalton, show that counties in the state with good roads have a lower tax rate than the others.

We believe that some of our brother editors are sorry now that they expressed themselves for either Clarke Howell or Hoke Smith, from the tone of their editorials.

About the wisest move the present legislature can do is to repeal the law electing the judges and solicitors by the people, make the necessary appropriations and adjourn.

Clarke Howell and Hoke Smith are overdoing the thing, causing many people already to become disgusted. Their continuous mud slinging is weakening both every day. Let each cool off. It is a long time before the primary.

A law to make it a misdemeanor for persons to smoke cigarettes is even wanted by most of those who smoke them. A gentleman of Dahlonega, who is continually smoking them when not asleep, said the other day that he "hoped to God that the bill would be passed by the legislature."

A bill is to be introduced in the legislature prohibiting the sale of Coca Cola, soda water and all soft drinks in Young Harris, Ga., in which is used as a flavor of any extract of a stimulating nature. We guess the school boys have been spending too much money over there for soft drinks.

One of the members of the legislature is trying to get a bill through, making it a misdemeanor for a person to remain in any one's house after being ordered out. If this becomes a law the poor young man, while courting, will have to obey orders whenever his girl's wealthy lover steps in. Else wear the ball and chain.

Marshal John Downs and Deputy Collector Spence captured two distilleries on Choctaw the latter part of last week. In one of the beer tubs was two dead hogs which had fallen in and drowned. We have heard of "things for the dogs to lie on," but this is the first time we ever heard of beer for the hogs to "waller" in.—Blairsville Herald.

In reference to the injunction suit against Gen. Warner and others in Hall county recently, the report is circulated that Judge Kinsey gave them permission to continue to do certain work about the dam site during the temporary injunction. Judge Kinsey tells us that this is untrue. It was the request of Col. Dean, Gen. Warner's attorney, for this to be done, but the Judge telephoned him to the contrary, and for fear that Col. Dean might misunderstand him, the Judge wrote him a letter soon after the conversation and kept a carbon copy of the same.

Mr. Shultz's Bills.

Mr. Shultz, of Lumpkin, introduced four bills in the house last week as follows:

To require parents to give their children instruction in the rudiments of an education.

To provide for the payment of witnesses in the Superior court in state cases.

To require the governor to pay rewards to parties making arrests of fugitives whether they be officers or private citizens.

To amend the constitution so as to allow all confederate soldiers a pension.

We doubt the majority of these bills passing without amendments if at all. The first bill requires the examination of children of school age in each school district at specified periods, and if they do not come to the required standards of a common school education, proportionate to their age, the parents or guardians of such children will be subject to a fine of \$50. If this was to become a law the chain gang would be the home of some parents and guardians, for the negligence of teachers. We will never have a law that will hold parents responsible for children who are out of their sight in the charge of teachers. It would be too dangerous. If such a law was to become of force now there is no doubt in our mind but what some of the citizens of Lumpkin county would go to the chain gang at the next term of the Superior court, judging from the appearance of some of the teachers now engaged, for if they are competent they deserve their looks.

If of the second passes the number of convicts will increase, many being unable to pay the big bills of cost heaped up on them for witness fees.

Many legislators will claim that officers will be less diligent in the discharge of their duties by waiting for rewards to be offered if the third bill is adopted, and will vote against it.

Now, as to the fourth and last bill we favor all needy deserving soldiers being paid a pension, but we are opposed to people having to be taxed to raise money for those who do not need it.

Porter Spring News.

Porter is on a boom now, but there is trouble in the public school. Some time last spring the patrons all met at the school house to select a place and to choose them a teacher. So they all selected Miss Mary Jarrard to teach their school. Now one or two of the same fellows, who say that there is nothing of it, are deacons of the church. One of them went out last week and gave the teacher a good talk, telling her that she had forced up her average, and that she had no right to teach, and said some hard things which I guess Judge Kinsey will settle. They disturbed the school, causing Miss Mary to have to go round and see them all, and set a day for them to come in. When the hour came to meet, all were there but those deacons. They never showed their heads, and this proves that they are to blame. If they don't stop and let the school alone I will give their names. One of the men is ever satisfied except when he is cursing the courts or public roads, or the church or school, or Mrs. Tate's syrup mill.

Mr. Editor, there was the funniest thing happened up here the other day. Two deacons were fixing a place to baptize some folks and got to throwing water on each other, and one of them wet the other so that he got mad and went home and would not come back to church next day.

There is a merchant up here who has ordered three barrels of kerosene oil. So you see we won't be in the dark. MEMBER.

A fellow stepped into the ordinary's office to make out a pension claim the other day, but as the old man had no proof that he was ever in the war, gave it up.

Gilreath's March.

We have been waiting to hear from some of our correspondents about Jonathan Gilreath's fourth of July march over at Mt. Lebanon, but we suppose that they are too much disgusted to either write or talk about it, judging from what we learn from those present. Jonathan being cock of the walk he appeared with a stick, wearing a piece of cheese cloth or netting tied around him for his regalia, somewhat resembling a fat tail pigeon. There were hundreds of men, women and children on hand for the purpose of seeing what did take place. It was this so called preachers intention to march the crowd by twos from a certain point to the cemetery. Two persons to carry a rod in front and two in the rear, like Masons do in a march, and before reaching the cemetery to halt, open ranks, cross the sticks at the top and have those in the rear turn in and march on through to the front. So the time arrived for them to fall in and Jonathan, covering as much ground as possible, began as follows with his new tactics:

"All youngs who are going to march fall in, and them that don't want to march, meet me at the cemetery." A great many got in line and Jonathan started them off. When he got to the point where he wanted them to change the command given was: "All youngs in front open out, and youngs behind turn wrong side out." This unique command caused much confusion of course. Then Jonathan commenced marching into the woods in a stooping position, telling them to follow him. This being no part of the program the people stood in amazement and didn't know what to do. Then Jonathan cried out in a loud tone, throwing up his head and placing his hands like he had eaten something that hurt him: "My God! My God! I've done the best I can." No one disagreed with him about this.

Well, the crowd managed to get to the cemetery and marched around each grave one at a time. And here Jonathan's part of the program ended. The other part of the program was carried out nicely. The annual report of the prison commission just issued, shows that Georgia has 2,293 misdemeanor convicts and 2,380 felony convicts. There are 132 men and 83 women at the state farm, seven of the women are white and 81 colored. There are 601 life convicts and 13 one-year convicts. Union and Milton counties have no convicts now serving. Banks, Lumpkin, Murray, Rabun and Towns all have one each. Fulton leads with 216. Out of the total number of felony convicts 1,092 are married and 1,248 single. Of these, 1,154 can read and write. One man is serving his eighteenth term, 1,974 their first. Murder convicts lead in point of number. The youngest convict is 10 years old, and the oldest is 77. There are two aged 11, four 12, four 13, two 14, three 15, thirty 16, forty 17. There are seven preachers. And persons of 69 other occupations. The newspaper profession is not included. The profit of the convict hire for one year is \$1,734.64.

A MATTER OF HEALTH

ROYAL BAKING POWDER
Absolutely Pure
HAS NO SUBSTITUTE

Mr. and Mrs. W. J. McCrann, of South Dekota, have fourteen living children.

The general appropriation bill introduced in the legislature last week shows that the amount foots up \$4,103,298.14.

The Telegraph says that Macon is now the center of a big anti-trust fight. Has Hoke Smith been in that city recently?

On last Friday the price of cotton fell \$5 a bale, below the high point of the preceding Monday. What's the matter with Jordan?

If the bill, now before the Georgia legislature becomes a law, every sheriff in the state will have to keep well trained blood hounds.

The establishment of eight new counties will make such a change in Georgia's map as to cause hundreds of thousands of them to be thrown away.

Senator Lumsden has introduced a bill to allow malitia districts to vote on stock law. This bill should be killed. We already have enough stocklaw trouble.

A bill has been introduced in the legislature to increase the pay of Justice court jurors to fifty cents each in every case tried. It also provides that each juror, not sitting on a case, shall also receive fifty cents for coming to court.

Some of B. R. Meaders & Sons Prices.

Did you ever stop to think what you save by getting for four cents what the people pay five cents for? One cent saved in a five cent trade makes you save twenty cents on every dollar spent. If you get one dollar per day for your work and save one cent in five, it amounts to getting one dollar and twenty cents per day. If you get one dollar per day for your work and lose one cent on every five cents spent, you only get eighty cents for the work. Count 312 days in a year, 20c per day saved, makes you receive for your work \$64.40, but do not take the advantage of that one cent in five saved and you only receive \$249.60, losing in one year, by not being a wise, close buyer, one hundred, twenty-four dollars and eighty cents, or almost five months time at \$1 per day. So one cent saved on one dozen jar rubbers is a greater thing than at first appears.

We not only offer a few items at a reduced price as leaders, but through our whole line we make the same per cent reduction that is made on the small articles. A few of the small articles:

Fruit jar rubbers 4c doz. Brass shoe tacks 4c, 3 papers for 10c. 5c mouse trap 3c. 6-cent calico at 5 and 5 1/2 cents. 10c buggy whips at 8 cents, 15c buggy whips at 10c. 10c hard at 8c. 7 1/2c rice at 5 1/2c. 5c cup 2c. \$1.25 dress shirt 92c. \$3.00 mantle clock \$2.25. \$2.50 8-day clock \$1.93. 7 balls white thread 5c. We save you from 10 to 50c per pair on shoes and have a big stock for you to pick from.

We sell at the above prices to everybody whether you request the lowest price, or whether you send your child to trade for you. B. R. MEADERS & SONS.

Dahlonega, Ga.

POUNDING MILL AND OTHER MACHINERY FOR SALE.

One Frazer & Chalmers 10-stamp mill with self feeders. Rockcrusher, complete. Also one 60 horse power engine and boiler. All in first-class condition. Inquire of W. B. Fry, Dahlonega, Ga.

Dr. Head says that he does not know of a single case of fever in ten miles of Dahlonega. Isn't this healthy enough?

The bill to elect county school commissioners by the people should never become a law. If it does it will give some popular, unqualified persons a chance of being elected, as is often the case in other elections now. There are already too many officials in the hands of the general voter.

The people should not be misled by the cry of advanced candidates for governor of what they will do if made governor two years from now. We will have two legislatures in session before the next governor is inaugurated. It is the present legislature you will have to depend on for the enactment of laws or measures of reform. Don't be hoodwinked and get excited about who will be governor, as the executive can only execute laws that the legislature shall make, says the Marietta Journal.

We heard a tax dodger singing "Home, Sweet Home," the other day. He doubtless meant his earthly home, for the other is out of his reach.

Mr. and Mrs. Kelly McGee, of White county, spent a day or two in our city last week. Mr. McGee anticipates moving here for the purpose of completing his collegiate education.

Mr. Halls and free pass bill has sunk to rise no more this session. There are too many members of the legislature who enjoy their free rides, though they are opposed to judges enjoying the same privileges.

About 25 of our citizens, including two physicians, have signed a petition asking Mayor Baker to pardon John Forest, Jr., who was sentenced recently to work on the streets 60 days in default of a \$10 fine, for a disturbance at negro church, having already worked 20 days. Forest is considered to be of unsound mind by some.

GEORGIA STATE FAIR,

Atlanta, Oct. 9th to 21st.

Greatest ever held—One fare for round trip.
20 county exhibits—Mammoth agricultural displays.
Great variety agricultural implements, machinery, vehicles, etc. I

Local News.

Pioneers will find a lot of nice light bread for sale by J. F. Moore & Co.

Judge Evans went down to Gainesville to spend a few days this week.

If you need any fruit jars, rubbers or jelly glasses, you will find them at J. F. Moore & Co.

Mr. Rogers, of the Battle Branch mine, spent last Saturday on business in Dahlonega, in company with his wife.

On last Sunday Mr. Charles Spencer, of White county, was married to Miss Nancy Anderson, a daughter of Mr. William Anderson, of Lumpkin county.

If you cannot attend the picnic tomorrow you are requested to send out a basket. We want to treat the country people nice tomorrow and make them all feel at home.

On last Saturday afternoon Mrs. Renbin Wilson died at her home in Auraria district, aged about 60, and her remains were interred in South's Chapel cemetery the following day, in a few steps of the church to which she belonged for years.

Last Friday the mail on the lower end of the upper route from Gainesville arrived in Dahlonega before the other started out. This shows that there is no excuse for it being behind so much. All that is needed most the time is an experienced driver.

The good members of the Baptist church at this place mean business. Recently they have erased the names of some of their erring member from the church book, and are now investigating the charge made against some of the female members for making and selling wine.

A lady of Columbus, Ohio, who is interested in the mines in this section, wrote us last week that she had been advised to subscribe for THE NUGGER, and in doing so, also stated that she "hoped to get facts as they are." This we always do, in reference to mining or anything else. No matter where the chips fall.

Tax receiver Calhoun consolidated the returns for Lumpkin county last Saturday, showing the valuation of taxable property to be \$971,920, according to the way it has been returned to him, which is a splendid showing, as it is an increase of \$88,743 over last year's returns. The receiver has been very diligent in the discharge of his duties, as the citizens here all know, and his manner of doing business will be of much interest to the county and make the taxes a little more equal. Notwithstanding all this, there are people in this county who have failed to return their property at its true value. How persons can hold up their hands and swear falsely about their taxes we can't see, unless they have given up all hopes of ever getting to heaven.

John H. Hagan is about 12 years of age. He lives down in Auraria district. His parents are dead and he stays at Mr. Can Reeves. For awhile he will work as good as any person, but he takes a notion occasionally to run away and will lay out in the woods and starve for several days, until found and carried back home. Not long ago he set fire out near Mr. Reeves' premises, causing a warrant to be sworn out for the lad. The justice, feeling sorry for the boy, got Mr. Reeves to agree to let him try him awhile. For a few days he worked all right and seemed to be contented. Then he took a will notion again and left out. He was chased by the dogs and trod, but eventually got away and went back to his former home. Then again he ran away, but was captured and chased and was to have been tried last Monday, but as the squire believes the poor fellow is out of his right mind he would not talk last Sunday like he would try him.

Mr. J. F. Moore has finished the repairs on his residence and is now engaged in converting the building at the old Public Springs, near THE NUGGER office, into a dwelling.

Some of the merchants are speaking of closing up a few hours tomorrow, in order to let the clerks attend the fiddler's convention. All had just as well do this, for everybody is going to be out at the park and have one more day of real enjoyment.

The other day over in Shoal Creek district as a lady and her husband were going to church he made some complaint about the cut of her dress. This made her so mad that she turned back and went home, leaving the husband to make the rest of the trip alone. It won't do to make fun of women.

Sometimes we get a subscriber's name mixed up on our mailer and it goes to the wrong office. It is the duty of postmasters to notify us of any NUGGER not called for. Some do this, while others do not, because they want to read THE NUGGER free of expense. If this occurs any more we will notify the department.

Any one looking for bargains will do well to call on A. W. Anderson at Cavender's creek, as they are selling strictly for cash and barter. There will be no more time business. But if you want bargains, come along with your cash and barter and you will get your money's worth.

Parents should instruct their children visiting the park not to climb and bend over the small saplings that have been trimmed up nicely and left to make a shade. What kind of a park would we have without trees and a shade? It looks like people would notice this without their attention having to be called to it.

While some of our citizens were standing talking last Friday morning in the court house yard, they noticed three or four loose brick in the wall of the house on the west side, at the back of the safe in the post-office. They had been removed and placed back by some unknown person who doubtless had a notion of making his way to the inside of the office.

Parties who have been across the mountain inform us that the cabbage crop will not be as large over there as last year. The farmers couldn't get a sale for all of their cabbage, and thousands of heads of this fine product rotted on their hands, is why there is a decrease in the crop this year. Cabbage bring a big lot of money into that section every year and when the crop is rather short or no sale for them it is greatly felt.

One of Lumpkin county's squires was called on not long ago to try a case where only 58 cents was involved, being the smallest sum we ever heard of a person being sued for in this county. The parties were G. P. Lance vs. J. B. Simmons, resulting in the defendant having to pay the principal and cost. It seems that Mr. Simmons was to deliver Mr. Lance a saw log. He did so, but Lance wouldn't take it because it was not according to contract.

For about a month a certain person has been missing his tobacco over in Shoal Creek district, which was kept in a box. A few days ago the man set a steel trap to see if he could learn something about it. That day a woman paid the family her usual visit about noon. They all went into the kitchen to dine except the woman. She didn't care to eat any. While the man was asking the blessing the woman in the other room cried out for help. The lady of the house ran in and found the visitor's hand caught in the trap. She sit and cried awhile and then went home and has not been back since. And it is useless to say that no more of the man's tobacco has been missing. This shows that in the midst of life we are in danger.

Mrs. John Chapman is visiting her relatives here this week.

Merchant Littlefield has been spending this week in Gainesville.

For sale, and not to rent, by B. R. Meaders & Son's, a good five-horse power engine at a bargain.

Mr. and Mrs. M. G. Head and Miss Pearl Anderson left last week on a few days visit to Adairsville, Ga.

Mr. B. F. Anderson has been appointed temporary administrator of H. F. Anderson, deceased, by Judge Evans.

You can get a nice tin type picture at the park for 25 cents. Persons desiring pictures for their sweethearts should make a note of this.

Upon inquiry, we are informed by members of the church here that there will not likely be any camping at the Dahlonega camp ground next month.

Rev. Mr. Taylor, pastor of the Baptist church at Dahlonega, went up and preached at Yahoola church last Sunday, pleasing very much the large congregation that heard him.

Mrs. Wier Boyd, who has been sick for some time, has been moved to the residence of her daughter, Mrs. Gaillard. Mrs. Boyd is a very old lady and is gradually growing weaker.

No wonder that "Bunt" Tolbert nearly always makes good time while carrying the mail. Down at New Bridge the post-master every day has a quart of cool sweet milk for the driver, going and coming, and at this end of the line "Bunt" has a good looking wife and baby.

Every person who can sing by note is invited to come out to the fiddler's convention and picnic at Dahlonega, and those who can't sing are invited to come and listen to those who can. Profs. Bracket and Anderson will lead in the singing. A number of fiddlers have already sent in their names to be entered for the contest, and if we don't all have one more good, jolly time, we will be very much surprised.

Hundreds of dollars are sent off from Dahlonega annually for meat which the farmers of this county could put into their pockets by a little more energy. Plant more corn, raise all the meat you can next year and see if we are not correct. Mr. Turner Quillian, of Hall county, says that he eribs his corn at fifteen cents per bushel. Why can't many of you do as well in Lumpkin? Then it would cost but little to make your meat for the market.

Last week West White, of this county, was arrested by Coroner Ricketts, of Dahlonega, at Ducktown, Tenn., and put in jail until the requisition papers could be secured in order to bring him back to Lumpkin county. Soon West decided not to give the officers any further trouble and notified Sheriff Davis that he was ready to make him at once a good forthcoming bond for his appearance at the next term of Lumpkin Superior court, charged with the offense of an affray. A few months ago, up at "Rock" Ravine, West knocked John Anderson down and after getting astride of him, took out his knife and drew the blade of it across his neck several times, saying that he was going to sever his head from the body—John was begging. At the same time, Mrs. Cannon—John Cannon's last wife—picked up a fire shovel and wanted to strike John too. All three were under the influence of liquor, and parties interfered and stopped the racket. At the last term of the Superior court bills were returned against all three of the parties. Anderson has also been absent since that time and has not yet been arrested. So, this is what they get into in the mountains of Hepheddam, where the lion roareth, corn whiffles flourish and the whang-doodle mourneth, etc.

Everybody and their grandma will be here tomorrow.

A new lot of fiddle bows just received by G. H. McGuire.

Merchant Price has been to Atlanta and Savannah this week.

The farmers have had nice weather this week to finish laying by.

Persons wanting shingles should go or write to Hutcheson Bros., Freda, Ga.

Mr. Wm. England, of Dahlonega, comes to the front this week with a tomato weighing two pounds and a half.

If you need a two-horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home growth timber and ready for hard service.

Mr. Strickland will keep his business house open all day tomorrow and any one wishing ice cold drinks can get them at any time during the day.

Rev. J. W. Boyd preached a very interesting sermon at the Methodist church at this place last Sunday, to quite a large and attentive congregation.

The colored people held a Union meeting at their church up in the Anderson settlement last Sunday, and every one who could get any conveyance was there.

If any one comes to town tomorrow who is not already a subscriber to THE NUGGER let him drop a dollar in the slot and it will go to his or her home right at once.

Remember that we keep for sale at THE NUGGER office warranty deeds, blank notes, Justice Pence blanks and nearly all other kinds. And if there is anything you need not already on hand we will print it upon short notice.

The cattle ordinance here should either be enforced or repealed. We have heard of more gardens than one being destroyed by cattle this year. If there was no such law in existence everybody would prepare to meet the demand.

Those fond of ice cream and ice cold temperance drinks will find plenty of both out at the park tomorrow. Nothing of an intemperate nature, as everybody will be expected to behave themselves and make it a day of pleasure instead of any trouble.

Last Wednesday a portion of the town was alarmed by the cry of a female, causing some to think that murder had been committed in the first degree, but an investigation proved that two young ladies had a fight and one struck the other on the head with the Dawsonville Advertiser, causing her to squall.

A merchant of Dahlonega received a letter from a gentleman last Monday desiring some information about the proposed building of an electric railway from Atlanta to Dahlonega on up into White county. The party has already completed a map of all the counties through which the line would run, and he wanted some additional information. He got it.

Mr. Bill Coeher, who left Dahlonega many years ago, dropped in to see us last Tuesday. Of course we were glad to see him and to learn that he has returned to make Georgia his home. Mr. Coeher has been mining out in Colorado and had some nice ore, both silver and gold, to show us. He has his eye on some mining property near Dahlonega now and may be with us quite awhile, although his former home is in Union county.

The trustees of the N. G. A. College met last Saturday, finished up the business of the annual session and adjourned. At this meeting suitable resolutions were passed concerning the life and death of Capt. R. R. Asbury, one of its members who passed away a short time ago. Miss Elene Glenn was elected to the chair of music in the college by a unanimous vote of all present. Miss Glenn is fully competent and a better selection could not have been made in Georgia.

Mr. Marion Chester and his son Ed are here from Pickens county.

Judge Evans is having some good seats put up in the court house yard.

Mr. Rogers, the newly elected president of Crown Mountain Co., is expected in as we go to press.

Mrs. Mand Kerr returned to her home in Chatanooga this week, accompanied by her brother, Mr. W. F. Worley.

Ordinary Evans, who visited Gainesville this week, writes us that he will work the roads of Lumpkin county under the new law.

We have been notified that there will be fiddlers here tomorrow from White, Dawson, Hall and Cherokee counties, in addition to many from Lumpkin.

Messrs. J. M. Ashley, of Dawsonville, Ga., Walter McEwin and C. E. Rowland, of Toledo, Ohio, have been in Dahlonega for a few days this week, and it gives us pleasure to state that what is known as the Ashley land deal has been consummated, the money paid and the deeds made. It consists of sixteen thousand acres of timbered land in Lumpkin and Dawson counties. This deal has caused much money to change hands.

Judging from what we have been informed Uncle Sam has some work to do up in Chastetate district. It is stated that while two young men, members of the church, were returning home from services at Mt. Pisgah Saturday, they called at the Walnut post-office and were given a letter each, addressed to Sam Waters, David Lane, Bill Holliday and Martin Tow. These young men live three miles south of the Walnut office and the parties to whom the letters were addressed reside six or seven miles northwest of Walnut, making ten miles distant apart. When reaching the first neighbor's house they called for water to drink and then threw the four letters in the yard and ran off and laughed as if they had performed some great miracle. When Uncle Sam gets hold of them it will be a long time before either one will feel like laughing.

Property Transfers.

The records of the clerk Superior court of Lumpkin county show the following record transfers:

E. Schryver, Cecelia Schryver, W. L. Hobart and Geo. F. Hobart to The Lookout Mica and Manufacturing Co., mineral interest in Nos. 605, 603, 604, 747, 492, 493, 800, 872, 874, 11-1.

John Steadman to Michael Wehnt, No. 811, 5-1.

Michael Wehnt to Robert Wehnt, No. 811, 5-1.

Robert Wehnt to W. P. Turner, No. 811, 5-1.

EH Wehnt, administrator of estate of Robert Wehnt, to W. P. Turner, No. 811, 5-1.

Robert Wehnt to W. P. Turner, No. 870, 5-1.

T. B. Howard, et al., to C. R. Sovey, 1/2 of 875, 12-1.

W. P. Price, Sr., and W. A. Charters to C. R. Sovey, 1/2 of No. 875, 12-1.

J. R. Cox to Frederic Cox, No. 1210, 12-1.

Fred Cox to Isaac Moore, No. 1210, 12-1.

William McCart to I. R. Cox, No. 1210, 12-1.

Peter E. Woody to C. R. Sovey, Nos. 874, 806, 807, 12-1.

D. O. Johnson to C. R. Sovey, No. 1210, 12-1.

W. T. Norrell to C. R. Sovey, 2-15 interest of No. 1210, 12-1.

Lydia E. Howell and Joel T. Miller to C. R. Sovey, 1/4 interest in No. 1210, 12-1.

Sallie Free and Harriet Free to T. J. Norrell, 4-15 interest in No. 1210, 12-1.

P. W. Hardin to J. F. Moore, Nos. 813, 12-1, and 149, 150 and 200, 13-1.

John L. Gamlin to S. A. West, Nos. 100, 104, 105 and 160, 5-1.

Mining News.

Moore and McDonald are getting along very well with their mining work. A lot of right nice nuggets found last week brought forth smiles.

Last Monday Mr. E. E. Crislen brought in for shipment a nice lot of gold to be coined. There is no better gold in the county, as it turns out 98 cents to the penny-weight.

Messrs. Riddell and Miller, of the Bunker Hill Mining Co., were in the city last Monday, who reported the boat and all other things connected with the company moving along in good shape.

Contracts are being made by the manager of the Consolidated Co. for wood to start up and run a portion of the chlorination plant down at the Hand mine. This company has a lot of concentrates desired to be worked beside those at the Lockhart mine.

Notices have been sent out for a directors meeting of the Crown Mountain mine in Dahlonega for today. It is reported here that a change will be made in its management, but we do not know anything about this. One of the pumps forcing the water on the mountain, broke last week.

There has been a suspension of work down at the Briar Patch boat and mine for a few days until some changes are made. At the Calhoun mining had to suspend until some damages caused by the heavy rains could be repaired, which is likely completed by this time. Last months clean was number one at the Calhoun. The canal and tube work of the Briar Patch moves right a long.

President Shaw of the Consolidated, and all others interested, are well pleased with the Barlow mine. The Ogle vein is very rich. When this vein was first struck near the surface it measured only a few inches and now at a depth of about three hundred feet it is four feet and continues to grow in size and richness. The last shot this week exposed the nicest lot of gold that this vein has shown yet. Later on electricity will take the place of steam at the Barlow.

Judge Kinsey came down from home last Friday and made the sheriff open court to enable him to grant the Southern Power and Milling Co. a charter for the purpose of carrying on the business of mining and developing water power in Lumpkin and White counties. And the company is now ready for business. It owns several hundred acres of valuable mining property in this county and some splendid water powers, and by developing and leasing this power will open up a new era in the mining industry in this country, enabling several mine owners to work their property which cannot now be operated for the lack of sufficient power.

The Singleton mill, belonging to the Standard Co., ceased operation last week. It will be moved up the creek nearer the cut from where the ore is being taken. This move will save tramming the ore more than a quarter of a mile at a cost of four dollars per day. Mr. Breyman is going to be ready for any drought that may come. He already has a couple of water wheels on hand. The water from the Yahoola dam, a short distance above, will be conveyed across the creek to the Singleton mill for the purpose of running one of these wheels when the water gets too low in the old canal to run the other wheel to any advantage. Mr. John Jackson was appointed superintendent of this mine last Monday, who went upon the discharge of his duties at once. Mr. Jackson is a native of this county, whose experience as a machinist and miner will make his services of much interest to the company. The Singleton is a good mine and has been properly managed, which accounts for its success.

Those boys who are bringing other people's chickens to town and selling them for cigars and chewing gum are going to get into trouble.

What to Do With Boys.

Simultaneously with the arrival of the vacation season, after school is out, comes the problem of what to do with boys during the summer months. And it is a question of importance, one that presses for solution. A citizen of Raleigh asked this question a few days ago, declaring that it was to him a matter of great concern. In the majority of cases the summer vacation is a loafing spell with the city boys, and many of them are led to form habits that are anything but good for them.

It is not strange that thoughtful parents are much concerned about their boys at this critical period in their lives. It is the formative period, and in many instances has a strong bearing on the after life. How important, then, is it that habits of industry and thrift, instead of idleness and thrift, instead of idleness and laziness, be cultivated?

It is a question that presents many sides; but after all there is only one side to be considered seriously—the right side. What constitutes the right side must be determined by the parents of each individual boy. No public system can be inaugurated that will fill the bill, and no general policy can be adopted that will meet the emergency. A great deal depends upon early training of boys. If, before they go away to school, they were taught respectful obedience to the wishes of their parents, and in school the same thing with regard to discipline is enforced, it will not be hard in the vacation time to get the boy to do things that will make for his welfare rather than his ruin.

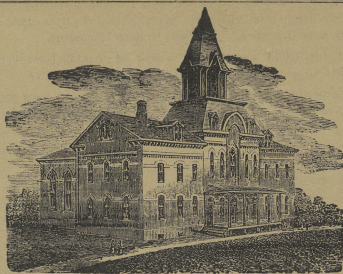

Don't theorize too much. Don't waste time looking and listening for some unheard-of plan for taking care of the boys in summers. If they have been taught right and have good sense the problem can be solved. Put them to work. It doesn't matter particularly whether it is in the line of profession that the young man expects to enter after he has left college. The farm is a good place and in reach of nearly everybody. And it affords a variety of healthful exercise. It puts the boy close to nature, and therefore close to God.

It is the cases of the city and town youth that the question of what to do with the boys becomes a serious problem. The problem is greater because too many children are raised like hot-house plants, and their parents regard it as beneath their dignity to do work that will soil their hands and clothes. Get that fallacy out of your minds. Get a small farm of eight or ten acres and let the boys work on it in summer. Let them get brown as berries. Let them grow and develop muscular power. Let them feel and see the force of nature in the soil, the growing plant, and in the sunshine, the rain and the storm. These things make folks. After a summer on a farm the boy goes back to school in the fall with a stronger body and a purer mind, better prepared to pursue his studies with vigor, and with a lesson of life that will abide with him during the coming years.—Raleigh Post.

Irish Potatoes.

Late Irish potatoes should be planted in July. No tuber crop yields more bountifully than the late Irish potato crop when the months of August and September have a good rainfall. In fact, one good soaking rain the first part of September will insure a good crop of potatoes. The fall-grown potatoes are much more prolific and freer from a strong and oftentimes acrid taste than those grown in the spring. A frequent practice among potato growers, and a very injurious one to potatoes, is to put strong, fresh stable manure in the furrow when the potatoes are dropped before covering them with a plow. Such an application not only produces scab on the potatoes, but often makes them waxy, impairing their flavor and reducing their quality for the market and for home consumption as well.—Southern Farm Magazine.

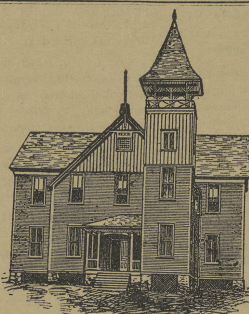

Some people make no more grievous mistake than to think that a newspaper man has nothing to do after the last paper leaves the press until time to print the next. The time between, which is about six days and twenty-two hours, is supposed to be a period of delightful relaxation—a life of dreamy ease. The truth is, the average paper is hardly in the postoffice before work has begun on the next issue. As an instance this page of matter was prepared last Friday and was in the hands of the printers before hundreds of our subscribers had received the Gazette issued on that day.—Pittsburg (Tex.) Gazette.

North Georgia Agricultural College,

Write to G. R. GLENN, for Catalogue and any information.

Dahlongega Graded School.

DAHLONGEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Rents are cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination.

If cheap living, low rates and a nine months school absolutely free for your children is not an attractive proposition, where will you find one?
W. L. ASH, Principal.

Georgia, Lumpkin County.

Whereas, Wm. J. Worley, administrator with the will annexed upon the estate of David Sands Quimby, deceased, lying in the state of Georgia, represents to the court in his petition, duly filed and entered on record, that he has fully administered said estate. This is therefore to cite all persons concerned, kindred and creditors to show cause, if any they can, why said administrator with the will annexed should not be discharged from his administration, and receive letters of dismission on the first Monday in August, 1905.

G. G. Evans,
Ordinary.

Administrator's Deeds
and Attachments.

APPLICATION FOR CHARTER,

Georgia, Lumpkin County.

To the Superior Court of said County:

The petition of Geo. A. Neal, of Kansas City, state of Missouri; Henry A. Buell, of Aurora, state of Missouri; and John A. Taylor, of Gridley, state of Illinois, respectfully shows:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of

"MOUNTAIN VALLEY MINING COMPANY."

2. They desire to be incorporated for the term of 20 years, with the privilege of renewal at the expiration of that time.

3. The capital stock of said corporation is to be Five Hundred Thousand Dollars (\$500,000) divided into shares

of the par value of One Dollar (\$1.00) each, and petitioners desire the privilege of increasing said capital stock from time to time, and then not exceeding One Million Dollars.

4. All of said capital stock is fully paid up and non-assessable.

5. The object of said corporation is pecuniary gain for its stockholders, and especially the carrying on of mining operations, mining and dredging for gold and other minerals; working and collecting placer deposits of minerals, and gold bearing rocks and clays and gravels; the building, erection and working of smelters, stamp mills, and any and all kinds of machinery, devices and appliances for producing and saving minerals; to develop water power and the use and sale of such power; to build and operate such railroads and tramways as may be necessary for the profitable conduct of its business; to buy and sell real estate and personal property; to do a general merchandise business, and do all such acts and things, and to exercise all such powers as are necessary and usual in conducting the business of mining, dredging, merchandising and dealing in real estate.

6. Petitioners desire as such corporation to have the power to contract for, lease, buy and hold such real estate as may be necessary and proper in the conduct of its business, and to sell, lease, mortgage or otherwise encumber the same; to issue bonds, notes or other evidences of indebtedness as may be for the best interest of the corporation to be determined by the board of directors.

7. Petitioners desire as such corporation to have the right to exercise the privilege of eminent domain as is provided by law for such corporations.

8. They further desire as such corporation to have the right to sue and be sued; to have and use a common seal; to make and prescribe such regulations and by-laws for its government as may be needful or proper and not inconsistent with law; to constitute and elect a Board of Directors and such Officers as may be usual and as shall be prescribed by such by-laws and as such corporation, they further desire all such general privileges and rights and powers as are incident to corporations of like character.

9. The principal office of said corporation shall be at Auraria, in said County of Lumpkin, State of Georgia, and petitioners desire that said corporation have the right to establish and maintain such branch offices, either within or without said State of Georgia, as may be deemed necessary as may be fixed and determined by the stockholders of said corporation.

Wherefore petitioners pray to be made a body corporate and politic under the name and style aforesaid and that a Charter be granted them conferring the rights and powers herein set forth, and petitioned for, and your petitioners will ever pray.

W. S. HERR,
Attorney for Petitioners.

Georgia, Lumpkin County.

I, D. L. Cook, Clerk of the Superior Court of said county, do certify that the foregoing is a true copy of the application for Charter of the Mountain Valley Mining Company, as appears of file of my office.

Witness my hand and Official signature, this 10th day of July, 1905.

All legal business promptly attended to.

Boy Wanted.

An exchange calls attention in a pertinent manner to the field open to the right kind of lads: "Boy Wanted" of any age or breed to fill an important position. Must have a clean face, clean habits and clean heart. Need not know how to roll a cigarette or how beer tastes, and if he is not up-to-date on all the smutty jokes of the pool room his ignorance will be overlooked. He must be a boy who treats his mother and sister—and every other boy's mother and sister—with respect; and does not refer to his father as the "old man." He need not be especially brilliant at school, but he must be studious and persevering, never cheating in his examinations or passing a problem until he has mastered it. He must be truthful, prompt, obedient and industrious. He must make his employer's interest his interest, and never be afraid that he is earning more than his wages. He is wanted to respond at once and to any number. Merchants want him to sweep out the store for a few years and ultimately take charge of it. Newspapers want him to commence with the crowd at the bottom and work to the roomy place at the top. He is wanted everywhere—in the law, in medical practice, in the counting room, to run great public works. The people who pay big salaries are looking for him. The people want him for Judge in the court, member of congress, senator or for president, and the nicest girl in all the world wants him for her husband.

She—And what did she say when you attempted to kiss her?
He—She said she thought I was a gentleman.
"Well?"
"Oh, after I got through kissing her she didn't think anything about it; she knew it."
A cradle operated by electricity has been invented. The mother touches the button and the baby does the rest, says an exchange.

Advertising.

First get the right sort of goods in the right location, at the right prices, and "then make a fuss about it" in the best paper you can find.

Don't say what everybody else in your line is saying, and never publish a general ad. There are 365 days in the year, on each of which you can talk in the newspapers. Don't try to tell all you know about your store every day. Talk of several items each time if you like, but say something definite about each one.

When you advertise something of special interest in the paper, fill the window with it and have it prominently displayed in the store. Have some neat tickets printed and hung up above or near the goods.

Be sure that all the clerks know what is going on. See that every clerk reads every advertisement every day. Then they will understand just what you are trying to do—just what the goods are, and how they happened to be so cheap or so good, or both.

Then keep it up. People are forgetful. They have to think pretty hard to remember the vice presidential candidate two campaigns back, and yet he was pretty well advertised at the time.

John Wanamaker once said, "to discontinue an advertisement is like taking down your sign."

That is just the idea. You have a sign above your door to let people know who you are and what you are doing. That's what your ad does. It merely multiplies your sign. It lets thousands of people know what you have to sell. —EX.

Providence and Physicians.

Dr. William Osler, who has been appointed to the Regius professorship of medicine at the University of Oxford, has a good-humored way of telling stories that reflect unfavorably on physicians.

At a medical banquet Dr. Osler responded to a toast on "Providence." He began:

"A merchant, after a long absence, reappeared at church one Sunday morning pale and thin."

"Where have you been?" said a trustee.

"I have been ill," the merchant answered; "I have been very ill. My doctor had a good deal of difficulty in pulling me through."

"Tut," said the trustee. "Tut, man. It wasn't your doctor that pulled you through; it was Providence."

"Maybe it was," returned the merchant, "but the doctor will charge for it."

One day a liar told a pretty young girl that she could reform a young man who wanted to marry her, but who got drunk, was vulgar, and was mean to his mother and sister. One night while the whippoorwills were calling to their mates and the cows were quietly chewing their ends, this girl stole away from home and married him, and their children have been stealing ever since they were big enough to reach what was in sight. Yes, he changed after she married him. He got worse, and soon went over the river by the jamjam route. The young wife took in washing to support herself and children, and died one day from sickness contracted from being out of doors in midwinter because she was unable to pay the rent for living in a hut. —EX.

Georgia and Opportunity.

New things, new environments appeal to the average young man. As a rule, he thinks that some other sections of the country are better than his own; that over yonder a little way, or indefinitely further, fame and fortune are now easily and quickly won.

Back in '48 this spirit took him to California. Later on Texas loomed up as a land of fortune. Then came the Klondike. And in each case there were scores of failures to one of success. Now Panama and recently acquired new territory are beckoning to the young Americans.

But it is unnecessary for the southern young man to seek out new fields for life work and its accumulation. It is not only unnecessary, but in most cases unwise. The young Georgian can do no better than to remain in his own state. It offers a multitude of opportunities for success in every line of work. Its resources have just begun to be developed. Its soil is rich and capable of producing in variety and abundance. Its mineral deposits are indeed a valuable storehouse. Its forests are far from being exhausted. The harnessing of its water power is only fairly begun. Its cities are growing and progressive, and furnish abundant field for professional and commercial pursuits.

If you have the ability and energy to make money or acquire a reputation you can do this without crossing the boundary lines of your state. Let Panama and Cuba and the Philippines and Bohemia alone and go to work in Georgia. —Dawson News.

Don't Knock.

The following card sent out by a Detroit commercial club, is worth reading and pasting to your hat: "If there is any chance to boom business, boom it. Don't pull a long face and look as though you had a sour stomach. Hold up your head, smile and look for better things. Hide your little hammer, and try to speak well of others, no matter how small you really know yourself to be. When a stranger drops in, jolly him, tell him this is the greatest town on earth, and it is. Don't discourage him by speaking ill of your neighbors. Lead him to believe that he has at last struck a place where white people live. Don't knock. Help yourself along by becoming popular, and push your friends with you. It's dead easy. Be a good fellow, and soon you will have a procession of followers. No man ever helped himself by knocking other people down in character or business. No man ever got rich by trying to make others believe he was the only man in town who knew anything. You can't climb the ladder of success by treading on other people's corns. Keep off the corns and don't knock."

It is Too Green.

The campaign in this state is being pulled off prematurely. No use to thump it as it is green as grass. Nobody but an inexperienced boy with an unlimited appetite would be walking over the patch thumping the thing in this green stage. The fact is Governor Terrell has just been inaugurated and has two long years to serve. Notwithstanding this candidate is scrambling for the place as if his term would expire within a few weeks. Not only so, but they are already ignoring principles and are indulging in personalities which will result in

and EVERYTHING else.

Tired Nervous

When you feel languid, tired, nervous and irritable, your vitality is low—your supply of nerve energy exhausted, and your system running down for lack of power.

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the impurities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nerve, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

My wife suffered with nervousness previous to a recent attack of typhoid fever, she was much worse, and could hardly get herself going. She was very restless at night, and never had a good night's sleep. She also suffered much from nervous headache. Dr. Miles' Nerve was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment, she was wonderfully improved. Continued use of Nerve has completed her cure.

1021 Cherry St., Evansville, Ind.
Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
Miles Medical Co., Elkhart, Ind.

hand to hand combat with shot guns, bowie knives and pistols. Such methods are a disgrace to the state and bring reproach upon the gentlemen who are using them. For the sake of decency, dignity and self respect gentlemen, stop and think a moment. Collect your senses and allow your common sense to pass judgment on your conduct. Then when you see yourselves as others see you go way back and sit down and let the little green thing grow and mature. Then walk up like gentlemen and thump it.—Gainesville News.

Paper was first made from cotton rags in 1002. The invention is claimed by Moors and Germans.

THE NUGGET.

DAHLONEGA, JULY 28, 1905

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:

\$1.00 - 12 Months.
50 cts. - 6 Months.
30 cts. - 3 Months.

It is said that Holmes got \$80,000 for disclosing the cotton figures.

Thirteen druggists were arrested in Savannah last week for unlawfully selling cocaine.

Many persons have died in New York from the excessive heat during the past few days.

Col. Bass, editor of the Clarksville Advertiser, a very prominent lawyer, has decided to enter the ministry.

The democrats of Fannin county met on the 15th and elected their chairman and officers for the next two years.

Over \$50 were raised at the baby show in Gainesville recently, which will be used towards buying a pipe organ for the Presbyterian church.

The Chinese boycott against American goods commenced on the 10th. China does this to retaliate against the exclusion laws of the United States.

There are most too many legislators who like to spend as much time in Atlanta as they can, at the expense of the state, for biennial sessions to be adopted.

Ex-Tax Collector Sanford, of Kone, Ga., shot down Geo. Wright in that city the other day because he said that he had ruined his family. Sanford then surrendered.

Hon. Elihu Root gives up a \$200,000 per annum law practice to accept a place in the President's cabinet at a salary of \$8,000. But probably Mr. Root has an eye to the next presidency, is the way the Marietta Journal is looking at it.

Judge Kimsey paid the blind tigers of Gainesville his special attention last week in his charge to the grand jury. It is said that the liquor they are selling down there is so mean that it is almost equal to the Keely cure. That is, when it does not kill.

Burglars entered a lawyer's office in Calhoun last week and got a pistol. The safe was not entered. Evidently the thief knew the aforesaid lawyer had been an editor and the iron strong box therefore offered no inducement.—Dalton Citizen.

Rockefeller has given away \$51,272,936. The newspapers always trumpet these big gifts. There are people of small salaries giving away more than Rockefeller, if amount of income is to be taken into consideration, truthfully remarks the Marietta Journal.

Lightning killed Charles Jones, near Marietta one day last week. The force was terrific, making a hole entirely through Mr. Jones' head. Eight other persons were dangerously injured. Others had their clothes torn from their bodies. One man was sitting on a peach basket and the basket was entirely burned.

Mr. Wright, of Floyd county, has introduced a bill the object of which is to make dry counties dry in fact. He proposes to make it a misdemeanor for any person as agent for another to sell liquors of any kind in counties where prohibition prevails. His bill also makes it a misdemeanor for anyone to carry or to send intoxicating liquors into a dry county, except for personal or family use. This measure has been drawn to meet the defect in the law which permits outside parties to ship liquors and to sell them in dry counties, thereby defeating, in part at least, the objects of prohibition.

Yellow fever has appeared in New Orleans.

A man lost an eye in Atlanta last Saturday by being hit by a baseball.

The increase of taxable property in twenty-one counties already is \$3,289,251 reported in Georgia.

At Bennington on the 21st the boiler of a U. S. gunboat blew up, killing 39 persons and wounding 80.

Don't forget the many different kinds of crackers at Prices, manufactured by the National Biscuit Co.

Excessive cigarette smoking caused Edwin Smith, of Atlanta, to try to kill his mother the other day.

Milton Rawlings was found guilty of the murder of the Carter children at Valdosta, Ga., last week.

The number of visitors at Porter Springs this season has reached about 100.

If you are going to paint and desire first-class sun proof paint, call at the Drug Store.

A blast of fifty-thousand tons of dynamite was set off in New Hampshire last Saturday at one time so as to open up river navigation.

A bolt of lightning struck a tank of oil in Texas last week and caused a destruction of one million barrels of oil. Several lives were lost.

A bill is now pending before the Georgia legislature which proposes to allow pensions to Confederate soldiers who have become blind since the Civil war. It ought to pass.

Editor Gray, of the Atlanta Journal and Hon. H. H. Revell, Meriwether's representative, had a fight in Atlanta Monday, originating from an editorial of Mr. Grays. Well, let them go it as long as they don't hurt each other.

We once attended a funeral where the deceased's grave was covered with the choicest flowers, and, to my certain knowledge, a rose was never pinned upon the lapel of his coat during the entire lifetime. If you have a friend that deserves a kindness, let it be shown while in life.—Gwinnett Journal.

Mr. Perry, of Hall, has introduced a bill to require the railroad companies to transport all members of the legislature free of charge while in the discharge of their duties. Where is the justice in this? Might just as well add that teamsters must convey them to the railroads and the hotels and boarding houses of Atlanta feed them during the session of the legislature.

Senator Ware's bill to return the selection of judges to the governor is another proof of wisdom of the men who made our constitution. Judicial officers should never be the foot-boys of local and partisan politics. We had better judges under the appointive system than we have had under the electric plan. Good strong lawyers would accept an appointment from a governor who would not scramble for the office at the polls, is what the Brunswick Journal says, and we agree with it most heartily.

Deputy Marshal John A. Downs informs us that within the past two months there has been about 22 illicit distilleries raided and destroyed in this county by him and his possemen. Out of this work there has grown 25 or 30 prosecutions. Most of these defendants have been brought before Commissioner Candler for investigation by Deputy Marshal Downs. Two of these distilleries were located in less than five miles of town. On Friday last Deputy Collector Crockett, Marshal Downs and Virge Kelly caught a woman, Martha Rogers, of Canada district, operating a distillery. She was "shoving the chunks" when the officers arrived on the scene.—Union County Banner.

Mining News.

The Southern Power and Milling Co. will meet tomorrow, organize and elect its officers.

Hands have been busy for several days in excavating the Singleton mill site which is now about ready and in the course of a few weeks twenty stamps will be crushing ore, which is not yet to search for but is already in sight.

The breaking of the air compressor and pump down at the Barlow mine during the past few days has somewhat retarded a portion of the work, but all repairs have been made good and things are running along smoothly down there now.

Mr. Hightower, who is building the tubes for the Briar Patch Co., informs us that he will have the job completed in less than two weeks. The two tubes are twenty inches in the clear and more than 700 feet long. The longest one is already finished and receiving the water.

Although the Mountain Valley Mining Co., will not be able to get its charter until another publication of its application, a reservoir is being dug on the property, pipes delivered and prospecting is being carried on every day so as to have everything in readiness as soon as the time is up for active business.

Dr. W. W. McAfee, president of the McAfee-Land Mine, after being here a few days, has returned to his home in Atlanta. While here the Doctor left instructions for operations to be resumed at once with C. F. McAfee to act as general manager, and work has commenced. Manager McAfee was almost raised in the mines of this section and ought to thoroughly understand his business.

Reply to our Baltimore patron: We cannot give any cause of the suspension of the lower Etowah. A year ago parties in New York began under bright prospects. Confusion occurred between them and the owner and work was suspended. Not long ago Mr. Vaneyekle, of New Jersey, leased it. He had \$600 worth of flame and other work done on a credit, and went away to return as soon as it was completed to begin work. This he has not done. He has never been back nor even paid the contractor for his work. Why we cannot tell.

The directors meeting of Crown Mountain Co., to have convened in Dahlonega on the 21st was postponed until the night of the 24th. It was attended by Gen. Warner, Col. J. H. Moore and Messrs. J. F. Moore, J. C. Rogers and J. S. Morton. The adjournment was made so that Gen. Warner could be present. The conclusion of the board was to request that a meeting of the stockholders be called at once at which meeting a definite course of procedure was to be determined upon. In the meantime an inventory of all property and material on hand will be taken and the condition of it be noted and reported upon with the view of shaping the future policy of the company to be determined upon at the stockholders meeting.

Mr. Craig R. Arnold, general manager of the Southern Power and Milling Co., passed through Dahlonega last Monday on his way to the Arnold-Loud Mine in White county where he goes to

look after the construction of roads and a saw mill, so as to enable him to supply the mine with the necessary machinery and be able to begin operation at this much noted place at the earliest day possible. The Arnold-Loud is one of the richest mines in this whole country, and it is the intention of Mr. Arnold to get everything in proper shape before the digging for gold begins, then he will be able to run without any delay. Mr. G. A. Ferguson, who operated this mine so successfully for its former owner, will still be in charge. The Etowah mine in Lumpkin county, belonging to the same company, located near Auraria, has been started up and the mill is now in active operation. The company already owns the Bart saw mill in this county and can secure all the lumber needed for any of its mines in Lumpkin. So the field seems to be very bright for this new company both in Lumpkin and in White. It certainly has our best wishes for success.

An illicit blackberry brandy distillery was destroyed over in Union county recently by Deputy Marshal Downs.

Some of B. R. Meaders & Sons Prices.

Did you ever stop to think what you save by getting for four cents what the people pay five cents for? One cent saved in a five cent trade makes you save twenty cents on every dollar spent. If you get one dollar per day for your work and save one cent in five, it amounts to getting one dollar and twenty cents per day. If you get one dollar per day for your work and lose one cent on every five cents spent, you only get eighty cents for the work. Count 312 days in a year, 20c per day saved, makes you receive for your work \$374.40, but do not take the advantage of that one cent in five saved and you only receive \$249.60, losing in one year, by not being a wise, close buyer, one hundred, twenty-four dollars and eighty cents, or almost five months time at \$1 per day. So one cent saved on one dozen jar rubbers is a greater thing than at first appears.

We not only offer a few items at a reduced price as leaders, but through our whole line we make the same per cent reduction that is made on the small articles. A few of the small articles:

Fruit jar rubbers 4c doz. Brass shoe tacks 4c, 8 papers for 10c. 5c mouse trap 3c. 6-cent calico at 5c and 5c cents. 10c buggy whips at 8 cents, 10c buggy whips at 10c. 10c lard at 8c. 7c rice at 5c. 5c cup 2c. \$1.25 dress shirt 93c. \$3.00 mantle clock \$2.25. \$2.50 8-day clock \$1.93. 7 balls white thread 5c. We save you from 10 to 50c per pair on shoes and have a big stock for you to pick from. We sell at the above prices to everybody whether you request the lowest price, or whether you send your child to trade for you. B. R. MEADERS & SONS.

WANTED mine hands, Drillers, Chumbers and Muckers, both for day work and contract work, at Pylarian, Ala. Apply to O. A. Smith, 27 Walton St., Atlanta, Ga. Yours truly, THE ALABAMA PYLARIAN CO. O. A. SMITH, Pres.

POUNDING MILL AND OTHER MACHINERY FOR SALE.

One Frazer & Chalmers 10-stamp mill with self feeders, Rockersher, complete. Also one 60 horse power engine and boiler. All in first-class condition. Inquire of W. B. Fry, Dahlonega, Ga.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

In the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE. It costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages and reaches you as pure and clean as when it left our factory.

Looked on every package.

Save these Lion-bills for valuable premiums.

SOLD BY GROCERS EVERYWHERE.

WOOLSON SPICE CO., Toledo, Ohio.

GEORGIA STATE FAIR,

Atlanta, Oct. 9th to 21st.

Greatest ever held—One fare for round trip. 20 county exhibits—Magnificent agricultural displays. Great variety agricultural implements, machinery, vehicles, etc. 1. Prizes for woman's work and for boys and girls. Seasonal attractions. Racing every day. \$22,500 in premiums. D. M. Hughes, President Georgia State Agricultural Society. W. R. Local News.

Mr. R. W. Walker, after an absence of several weeks, returned last week for a short visit.

Dr. W. W. McAfee, of Atlanta, spent a few days at the McAfee-Lund mine, and Dahlonega last week.

The fiddlers' convention here Saturday resembled one of Hoke Smith's big four and five thousand audiences.

Mr. J. E. Meaders, of Swainsboro, Ga., is up on a visit, who will likely spend several weeks with relatives.

Mr. Harrison Hallfield, who left here many years ago, was in Dahlonega last Saturday. He now lives at Roswell, Ga.

Mr. Julian and lady, of Forsyth county, were on a visit to their relatives last Saturday, and took in the picnic while here.

Jasper Clements, who got "out of sorts" during commencement, appeared before Mayor Baker last Saturday and entered a plea of guilty, and was fined one and cost.

Up at Porter Springs one day last week, a fourteen year-old lad of Mr. Milligan, of Louisville, Ky., accidentally shot himself through one foot. The day before a younger brother stepped on a nail, which made a painful wound.

Mr. H. R. Loggins requests us to state that any one interested, or wishing to become so, in the mineral belts of either Lumpkin, Dawson or Rabun counties, that he is now able to make some good shows. His address is Dahlonega.

Mr. John A. Parker, for many years a citizen of Dahlonega, is now afflicted at his home in Atlanta with dropsy. Mr. Parker used to be one of Lumpkin's most wealthy citizens, but misfortune and old age has brought about a change.

The hot-wave, which spread over the country, killing many people in New York, even visited this section and lasted for several days, though not severe enough to injure any one here. Last week it ended and people are more comfortable now.

Some time in September a reunion of the 52nd Georgia Volunteers will take place at Dahlonega. They will meet at the Park, where there is plenty of pure cool spring water and plenty of fresh air. Capt. Woodward will fix and announce the date later on.

Down at the Barlow mine last Saturday night, while Superintendent Tom Ray and Mr. Edwards were driving a horse attached to a buggy, the vehicle jumped the track and went down into a cut. The vehicle was demolished but the occupants escaped injury, except being jolted up a little.

Over in Shoal Creek district there are two men who have been plowing the same mule. One will sit down in the shade until the other plows awhile and then he takes charge of the lines until the other rests awhile. It is nice for the men but pretty tough on the mule, and if they don't die with laziness both will live along time.

Mr. J. B. Simmons sends us a letter of more than five pages in reply to a short local appearing in a recent issue of The Nugget concerning his 55 cents suit, which causes it to be crowded out until next issue. If all correspondents would be short and to the point it would be much better, as life is too short to spend too much time in reading long articles.

On last Sunday morning a wedding occurred in Dahlonega which was a surprise to all, even to the parents of both the contracting parties. It was Mr. Will Edge and Miss Tolona Davis, the youngest daughter of Mr. J. L. Davis. When Mr. Davis stepped out from home Squire W. J. Worley was called in, who soon had them with two souls with but a single thought and two hearts that beat as one.

Persons wanting shingles should go or write to Hutcheson Bros., Freda, Ga.

Prof. and Mrs. Ferguson returned last week, after a short visit to Virginia.

Miss Fannie McGuire has been spending several days with her friends in Atlanta.

Quite a number of visitors from Porter Springs, spent a few hours in Dahlonega last Friday.

John Summerour, Jr., was fined one and cost Saturday by Mayor Baker for getting a little too juicy.

The crops are looking splendid now and the farmers are about over their scare, caused by the long rainy spell.

Mrs. Charlie Satterfield, after spending about a week in Dahlonega, left last Friday for her home at Adairsville, Ga.

If you need a two horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home grown timber and ready for hard service.

Dr. Glenn has received many letters from parties asking for college catalogues and the belief is that the next session will open with an unusually large attendance of students.

Mr. Craig R. Arnold has rented the residence now occupied by Maj. Wilson, near the The Nugget office, to be his headquarters. We are all pleased to have Mr. Arnold locate here.

Mr. James T. Grindle swore out a warrant for Ben Self the other day, charging him with slander. It originated about what Mr. Self said concerning Grindle's mill—claiming that it "sucked itself."

There is no pleasanter place for visitors to spend the summer than Dahlonega. As a proof of this fact we heard one of the guests at Hall's Villa snoring at least a hundred yards, before day, the other morning.

Messrs. Breyman and Shaw, after being here two weeks or more, left for their homes last Friday. Mr. Breyman will be back in about a couple of weeks, and Mr. Shaw will not return under two months.

We received a letter from Mr. Jephtha Cochran, of Randa, last Friday, stating that he had not received his Nugget in three weeks. It is labeled and put in a bundle with the other Nuggets for that place and there is no reason why Mr. Cochran should not get his paper. If there is any further trouble we will try to find out the cause.

The ordinary of Lumpkin county, will begin working roads under the new law on the first Monday in August. Up to that time the overseers are requested by Judge Evans to have any washouts or bad places that may be found in the roads fixed, and the hands doing the same will get credit for their labor on the first half year to be worked under the new law.

It seems that West White of this county, has gotten into more trouble. The other Sunday, after having made a bond to the sheriff the previous day for his appearance at the fall term of Lumpkin Superior court, he and Kirk Henson had a scuffle over a jug of liquor. Kirk proved to be the strongest man and took the jug away from West. West ran off saying that he was going to get his gun and shoot him, and sure enough the young man soon appeared with the gun and pulled down on Henson. At the report of the gun Henson dropped, but was soon up and making his way off to the woods as fast as he could travel.

After things got quiet some time was required by several of Henderson's friends in picking shot out of his face and body and then they didn't succeed in "un-leading" the wounded man. There has been no arrest so far that we have heard of. It looks like West is determined to go to the changing, causing his parents much trouble in their declining years.

Mine hands wanted. See notice elsewhere.

There will be an all-day singing at Yahoola next Sunday.

It is impossible for us to give all the names of visitors here last Saturday.

Mr. Howard Stanton was up from Gainesville last Monday and Tuesday.

Sheriff Davis left last Tuesday for Ducktown, Tenn., on a few days visit.

If you can't say something for your town never be guilty of talking against it.

Mr. H. D. Gurley, Jr., of Elberton, Ga., is here on a week's visit to his parents.

Mrs. Minnie Rice is over at Ducktown this week on a visit to her sister, Mrs. Frank Moore, accompanied by her daughter, Miss Pearl.

County School Commissioner Seabolt is now out on his round visiting the various schools of the county, and will be engaged in this business for about three weeks.

We return our sincere thanks for the many renewals and new subscribers received last Saturday. It was a big day here, but our friends didn't forget the printer.

Mr. W. G. Campbell, who left for Virginia a few days ago, reached his destination all right. He is located at Body Camp, Va., and writes us that he thinks he will like the country all right.

We regret to learn that W. I. Rush, one of the owners of the Briar Patch gold mine in Lumpkin county, had the misfortune to lose his wife and little girl recently by drowning in Lake Michigan by the boat capsizing while they were on a pleasure trip.

The Lumpkin County Public School Declamation contest convened the 1st Saturday in September at the park, if the weather is favorable, if not, at the court house. Prizes will be offered so as to make it interesting to all. The program will be published in due time.

Mr. Ed McDonald, after spending several days down in South Georgia, returned last Monday, with the intention of making the lower country his future home, having already rented a farm. Mr. McDonald is a good farmer, good citizen and will do well any where.

Judge Tate is having some up to-date farming done on his place out in the country, and the result is, he never had a better prospect for a good crop. He has purchased the latest improved tools, comprising a Disk plow, Disk cultivator, stalk cutter and a corn planter, which distributes the guano both at the same time. And the result is, Mr. Tate makes plenty to do him and never complains of hard times.

On Saturday afternoon news reached town that a man was killed up on the Cooper Gap road, near the Mahew place, by Walt Ward. The marshal and sheriff hopped into a buggy and were soon on the spot. And in a short while afterwards Ward was brought to town and lodged in jail.

There was no dead man found, but one was discovered who had an ugly wound on the top of his head made by a rock. It was Joe Gilreath. Ward threw a rock at Joe Gooch, who was on a mule, missed his aim and hit Gilreath in his wagon. The wound bled freely, but was not severe enough to prevent Gilreath from yelling so he could be heard for some distance away. Ward claimed that Gooch tried to run over him, but from what we learn, all were drinking, and if they had been sober there would not have been any trouble. Gilreath and Gooch live in Union county and Ward resides in Jackson. The wounded man refused to swear out a state warrant for Ward and on Monday the defendant was brought before the mayor and fined \$10 and cost, making \$17.30 all told. The fine was paid and Ward returned to his home.

Mr. James Witt, Jr., is over on a visit from Ducktown, Tenn.

Merchant Will Jones is using the painter's brush on his store house.

An infant of Mr. and Mrs. D. L. Cock died here last Tuesday evening.

It may be that a singing convention will take place at Dahlonega later on.

If you need any nice visiting cards, either blank or printed, we have them at THE NUGGET office.

Had that dispute on Monday night been between two southern men instead of northern gentlemen a fight would have occurred certain.

The weather up here is very cool and pleasant. So much so that a person has to get under a blanket at night in order to be comfortable.

After about a weeks stay in our city. Mr. Morton and Rogers, directors of the Crown Mountain Mining Co., returned to their homes last Wednesday.

We have been printing a lot of letterheads, envelopes and pay rolls for some of the mining companies this week. Pay rolls are very interesting to laborers.

If any of our subscribers become displeased with THE NUGGET and want to stop it all they have to do is to let us know and we will refund their money at any time.

The members of the Philippi church, in this county, have raised enough money to build them a new house of worship 30x40, and will commence its erection next Monday.

Mr. Hughes Campbell, who is traveling for the Chamberlain Medicine Co., Des Moines, Iowa, visited THE NUGGET office last Tuesday and made it very pleasant and profitable to us.

The convention of last Saturday caused people to come here who had not been in Dahlonega for 20 years, and some for the first time. Such gatherings makes friends, acquaintances and much pleasure.

Mrs. H. F. Anderson and her children extend a word of thanks to the people of Dahlonega and surrounding country for the courtesy shown them at the time of the death of her husband and their father.

Messrs. B. F. Willingham, of Ball Ground, Ga., N. W. Tate, Adairsville, Ga., N. Y. McEntire, Calhoun, Ga., were here this week. The first gentleman deals in monuments and the last named are tilers of the soil.

Mr. J. O. Shepherd, who used to spend the summer at Porter Springs, arrived in our city on his way up there again last Tuesday, but a telephone message called him back home for some purpose.

Mr. Shepherd has a business in both Fitzgerald and Social Circle, Ga.

Col. H. P. Farrow, of Porter Springs, was the first man to register. So, if any one inquires about the Colonel's citizenship they can observe by looking at the registration book of Lumpkin county that he is one of her citizens, and we welcome him among us with much joy.

Several visitors passed through Dahlonega last Sunday on their way to the Bunker Hill company's dredge boat. They had been looking over the gold fields of Auraria before their visit here and seemed to be very much pleased with what they saw. Some are already interested and others will likely become so.

Last fall Arthur Singleton, col., passed along where Mr. Ben Smith was pulling up his cabbage and covering the heads with earth, which makes them white and nice. A short time ago, Arthur decided that he would bury his, and did so. The other day the negro was very much surprised when he went to get a white cabbage for dinner and found every one rotten. Arthur will bury no more cabbage in the summer time to make white heads.

Death of Mrs. Boyd.

The death of Mrs. Wier Boyd, which occurred at the residence of her daughter, Mrs. B. P. Gaillard, on the morning of July the 28th, has brought expression of sympathy and much regret to the bereaved relatives from all over the town and country.

Mrs. Boyd's maiden name was Sarah J. Sliton. She was born the 30th day of December, 1824, near Mt. Pleasant, White county, Ga., and was married February 9, 1843, to Col. Wier Boyd, now deceased. Moved to Dahlonega in 1850, and joined the Methodist church in her childhood and lived a consistent member until her death. She was the mother of eight children and has twenty-two grand children. Mrs. Boyd has no surviving brothers or sisters, all having passed away several years ago.

The remains of the deceased are being interred in Mt. Hope cemetery by the side of her husband, brothers and sister as THE NUGGET goes to press.

Frogtown News.

Well, Grindle and Self have sent their slander case to the Superior court.

From the way the boys and girls are swinging, there will be some money for the ordinary soon.

A. W., from Wild, was up Sunday with a smile on his face—a pretty girl by his side was the cause.

By jacks, I saw another deacon Sunday who just got in sight of the meeting house and sit down by a pine tree and kept some young boys out till meeting broke. Where art thou, satan?

There is a boy going with a girl up here whose sister just got married a few days ago, and the boy can't tell them apart and he gives the man 50 cents every Sunday to get his wife and start as soon as meeting is over. Pretty costly for the lad!

I saw a man traveling up the road the other day moving a woman, and he was afraid she might fall out of the vehicle and had his arms around her and she was licking him in the face. I could hear her say, "Darling, how sweet."

Mr. Will Jones returned from Texas last week, and from the way he looks he had better stay with old Lumpkin. You No.

The Fiddlers' Convention.

The first convention of fiddlers ever held in Lumpkin county took place here last Saturday. The day opened up bright and pleasant and all nature seemed to smile, causing it to be one of Dahlonega's most happy and lovely occasions.

Visitors commenced arriving the night before and by early dawn hundreds of them were making their way to Dahlonega from every direction, and by ten o'clock our streets were full of people all the way out to the park. Nearly all kinds of business had suspended and by 11 o'clock most of the merchants had closed their stores and were on their way to the convention, swelling the crowd to at least one thousand.

They were present from all parts of Lumpkin, every adjoining county besides Pickens, Cherokee, Fulton, Forsyth and various other counties in Georgia, and several were on hand from the state of Ohio, and a more orderly crowd of people never assembled anywhere. Just think of one thousand and persons taking dinner together. Some seeing and talking with old friends for the first time in many years. Others making new acquaintances of persons from both far and near, all listening to instrumental and vocal music of citizens who had met for the purpose of adding more interest to the occasion by using either a fiddle, guitar, banjo or hymn book, which was enjoyed by both old and young, with nothing to disturb their pleasures whatever.

At the appointed hour, Col. V. S. Huff, having been appointed master of ceremonies, appeared

upon the stage and introduced Col. R. H. Baker, the present mayor, who made a very interesting address of welcome, saying many pleasant things about the large audience. At the close of the Colonel's remarks the music began which was kept up according to the program for about an hour, Mr. W. H. Satterfield having performed his part by playing that old familiar tune called Katie Hill. While the ladies were unloading the hundreds of baskets and boxes and preparing the tables, Uncle Elisha Trammel, of Auraria, who is 87 years of age, hopped upon the stage and gave the audience a few of the quick steps like those he used in and about his town long years ago while in his teens, which doubtless brought to the old mans mind many pleasant memories of the days of long ago, for the smile on his face cased him to imagine that he was swinging a girl of sweet sixteen.

When Uncle Elisha disappeared from the stage dinner was announced and the tables and many other places in the park were covered with cake and chicken and everything else that was good. If any one went away hungry it was their fault, for call after call was made for everybody to come forward and help themselves.

After dinner the fiddlers' contest began for the three different prizes—1st prize \$5 gold coin, 2nd \$1 cash, 3rd \$3 cash. The judges were Messrs. J. W. Woodward, G. H. McGuire and W. H. Satterfield. They were separated on the stage from the contestants by a curtain. Before the contest commenced each one desiring to enter gave his name to W. B. Townsend, who entered it on a paper opposite the number, whatever it was, and the same number was given the fiddler so he could appear when his number was called. The judges in this manner know no contestant, and had to make up their decision by number instead of name, being the fairest and most satisfactory way that could be adopted. After the contest began two contestants backed out, leaving only fifteen in number but got up no confusion for when a number was called and the party didn't appear the judges had no figuring to do. All the contestants reside in Lumpkin county except Mr. W. E. Green, of Cherokee. As the contestants appeared one at a time and began drawing the bow to the best of their ability much interest was manifested throughout the entire audience by their friends until the last one had finished. Those in the contest were: G. D. Bruce, W. A. McDougald, Will Palmer, J. S. Lingerfelt, Joseph Ricketts, Fabe Sullins, E. C. Reeves, Jack Norrell, W. E. Green, West Satterfield, John Lingerfelt, E. E. Striager, Dillard Grizzle, Fields Wilson, Charles Dotson.

When the judges retired to make a decision, Profs. Anderson and Bracket appeared with a lot of well trained singers and sang several very beautiful songs which were listened to with much interest by all present.

Then Capt. Woodward, one of the judges, came forward and with a few very pleasant and appropriate remarks made known the names of the winners and delivered to each his prize as follows: 1st to Fields Wilson, 2nd to Dillard Grizzle, 3rd to Will Palmer.

This ended the program for the day, being the most enjoyable occasion and the biggest crowd that has assembled at Dahlonega in many many years, causing all the people of the town to feel proud and rejoice at such a big visit from their friends, hoping that the day is not far distant when we will all meet again here on some similar occasion.

The electric lights made a failure when the power was turned on Wednesday afternoon and Dahlonega was in darkness that night. They were all right the night before and as there was no lightning to interfere, we do not know what the trouble was.

IMPORTANCE OF CARBON.

Without it or its Equivalent We Could Have No Arc Light.

The electric arc light as now so commonly used is produced by the passage of a powerful electric current between the slightly separated ends of a pair of carbon rods, or carbons, about twelve inches long and from three-eighths to one-half inch in diameter, placed vertically end to end in the lamp. The lamp mechanism is so constructed that when no current is passing the upper carbon, which is always made the positive one, rests upon the lower by the action of gravity, but as soon as the electric current is established the carbons are automatically separated about an eighth of an inch, thus forming a gap of high resistance in the electric circuit, across which the current is forced, resulting in the production of intense heat. The ends of the carbons are quickly heated to brilliant incandescence, and by the burning action of the air are maintained in the form of blunt points. As the carbons burn away, the lamp mechanism feeds the upper one downward just fast enough to maintain the proper separation. The carbons are not heated equally, the upper or positive one being much the hotter. A small cup-shaped cavity or "crater," ordinarily less than an eighth of an inch in diameter, is formed in its end, the glowing concave surface on which emits the greater part of the total light. In lights of the usual size, something like half a horsepower of energy is concentrated in this little crater, and its temperature is limited only by the vaporization of the carbon. Carbon being the most refractory substance known, the temperature of the crater is the highest yet produced artificially and ranks next to that of the sun. It is fortunate that nature has provided us with such a substance as carbon, combining, as it does, the highest resistance to heat with the necessary electrical conductivity. Without carbon or an equivalent, and none is known—we could have no arc light.—Charles F. Brush in Atlantic.

STOP IT.

Boasting of what you can do instead of doing it.
Thinking that life is a grind and not worth living.
Exaggerating and making mountains out of molehills.
Talking continually about yourself and your affairs.
Saying unkind things about acquaintances and friends.
Thinking that all the good chances and opportunities are gone by.
Thinking of yourself to the exclusion of everything and every one else.
Speculating as to what you would do in some one else's place and do your best in your own.
Gazing idly into the future and dreaming about the ideal of making the most of the present.
Longing for the good things that others have instead of going to work and earning them for yourself.—Success.

A Hurricane.

The terrors of the deep were perhaps never more thrillingly set forth than in the description by a young lady who last year made her first trip abroad. She kept a diary, very much, says the New York Herald, like that of Mark Twain, when for his visit he recorded the fact that he "got up, washed and went to breakfast."

There was one important exception. When she crossed the channel the experience was so trying that she felt impelled to describe it.

"I firmly resolved to stay on deck," she wrote, "although the tempest increased to such a frightful hurricane that it was only with the greatest difficulty that I could hold up my parcel."

A Wonderful Memory.

Hortensius, the Roman orator, could repeat word for word a book he had just read. On one occasion he made a wager with one Sennius and to win it went to an auction, remained all day and in the evening gave a list of all the articles sold, the prices paid for them and the names of the purchasers. The accuracy of his memory was in this case attested by the auctioneer's clerk, who followed the recapitulation with his book and found that in no case had the man of wonderful memory made a single mistake.

Manners.

Manners are of more importance than laws. In a great measure the laws depend on them. The law touches us but here and there and now and then. Manners are what vex or soothe, corrupt or purify, exalt or debase, barbarize or refine us, by a constant, steady, uniform, inseparable operation, like that of the air we breathe. They give their whole color to our lives. According to their quality they aid morals, they supply them or they totally destroy them.—Burke.

A Bad Recollection.

First Barber—When I asked him if he wanted an egg sham-poon he jumped right out of the chair and made for the door—Detroit Free Press.

Had Either Way.

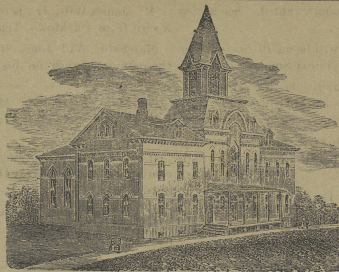

Mr. Wiseguy—No, I don't want any of those sausages. I'm afraid of trichina. The Butcher—I assure you there's no danger of trichina in these sausages. Mr. Wiseguy—Well, hydrophobia, then. It's just as bad.—Cleveland Leader.

Encouraging.

"Close up, boys; close up!" said a colonel to his regiment. "If the enemy were to fire on you when you are straggling along like that they wouldn't kill a single man of you. Close up!"

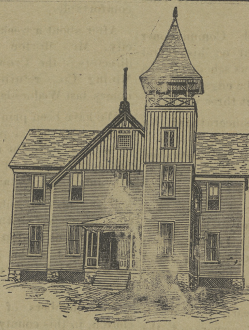

Will Haul Children to School.

The board of education has decided to experiment in hauling children to school. At a recent session of the board arrangements were perfected to test the matter in a rural section near Pendergrass. In that section there are some 25 children remote from a school house and the board did not think it advisable to establish a school for that place. It is the policy of the county board not to establish new schools but to consolidate and abolish where school houses are too close together. If the method of hauling in this instance proves to be a success the board will abolish small schools in many sections and haul the children to large schools where the houses are more comfortable and where the teaching force is more competent. — Commerce News.

North Georgia Agricultural College, A State Institution, Dahlonega, Ga.

Write to G. R. GLENN, for Catalogue and any information.

Dahlonega Graded School.

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Rents are cheap and the cost of living moderate. Why not move here to give your children a fine school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination.

If cheap living, low rates and a nine months school absolutely free for your child are not an attractive proposition, where will you find one?
W. L. ASH, Principal.

WE DO ALL KINDS OF JOB WORK.

APPLICATION FOR CHARTER.

Georgia, Lumpkin County.
To the Superior Court of said County:

The petition of Geo. A. Neal, of Kansas City, state of Missouri; Henry A. Buell, of Aurora, state of Missouri; and John A. Taylor, of Gridley, state of Illinois, respectfully shows:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of

"MOUNTAIN VALLEY MINING COMPANY."

2. They desire to be incorporated for a term of 20 years, with the privilege of renewal at the expiration of that time.

3. The capital stock of said corporation is to be Five Hundred Thousand Dollars (\$500,000) divided into shares

of the par value of One Dollar (\$1.00) each, and petitioners desire the privilege of increasing said capital stock from time to time to a sum not exceeding One Million Dollars.

4. All of said capital stock is fully paid up and non-assessable.

5. The object of said corporation is pecuniary gain for its stockholders, and especially the carrying on of mining operations, mining and dredging for gold and other minerals; working and conducting placer deposits of minerals and gold bearing rocks and clays and gravels; the building, erection and working of smelters, stamp mills, and any and all kinds of machinery, devices and appliances for producing and saving minerals; to develop water power and the use and sale of such power; to build and operate such railroads and tramways as may be necessary for the profitable conduct of its business; to buy and sell real estate and personal property; to do a general merchandise business, and do all acts and things, and to exercise all such powers as are necessary and usual in conducting the business of mining, dredging, merchandising and dealing in real estate.

6. Petitioners desire as such corporation to have the power to contract for, lease, buy and hold such real estate as may be necessary and proper in the conduct of its business, and to sell, lease, mortgage or otherwise encumber the same; to issue bonds, notes or other evidences of indebtedness, or may be for the best interest of the corporation as determined by the board of directors.

7. Petitioners desire as such corporation to have the right to exercise the privilege of eminent domain as is provided by law for such corporations.

8. They further desire as such corporation to have and use a common seal; to make and prescribe such regulations and by-laws for its government as may be needed or proper and not inconsistent with law; to constitute and elect a Board of Directors and such Officers as may be usual and as shall be prescribed by such by-laws and as such corporation, they further desire all such general privileges and rights and powers as are incident to corporations of its character.

9. The principal office of said corporation shall be at Aurora, in said County of Lumpkin, State of Georgia, and petitioners desire that said corporation have the right to establish and maintain such branch offices, either within or without said State of Georgia, as may be deemed necessary as may be fixed and determined by the stockholders of said corporation.

Wherefore petitioners pray to be made a body corporate and politic under the name and style aforesaid and that a Charter be granted them containing the rights and powers herein set forth, and petitioned for, and your petitioners will ever pray.

W. S. Hery,
Attorney for Petitioners,
Georgia, Lumpkin County.

L. D. J. Cook, Clerk of the Superior Court of said county, do hereby certify that the foregoing is a true copy of the application for Charter of the Mountain Valley Mining Company, as appears of file of my office.

Witness my hand and Official signature, this 10th day of July, 1903.
